Video Launch Amplifier & Video Distribution Amplifier

Overview

Dual purpose product which can be utilised as either a Launch Amplifier when installed at the camera end or as a Distribution Amplifier when used at the monitor end.

Use as a Launch Amplifier to enhance picture quality over longer transmission distances and its installer-friendly design has tool-less adjustable gain and high frequency lift controls. Used at the monitor end of the cable run it will function as a Video Distribution Amplifier using the two coax outputs. This stand-alone unit is fully RoHS compliant and also comes complete with 230V plug-top 12V DC power supply (110V available on request).
