The UNICABLE® Kit provides an ideal way to create any test cable needed. Along with the UNIDAPT® Kit you can now mix and match any combination of connectors or adapters to the ends of a 48" cable assembly. The UNICABLE® Kit is a six piece set essential for shop or lab use. It includes a wire rack designed for storage convenience.

The cables are extra flexible type RG-58A/U with 100% double braid shielding (copper braid over mylar aluminum foil). The jacket is PVC, matte blue with blue molded strain reliefs. The UNIDAPT® connectors at both ends are silver plated machined brass and gold plated contacts with Teflon dielectric.

The wall rack is cable friendly and keeps cables organized and in their place.

**SPECIFICATIONS**

IMPEDANCE: 50 ohms  
 FREQUENCY RANGE: DC to 1GHz  
 CABLE: RG-58A/U, 20 AWG  
 CAPACITANCE: 94.8 pF/m Nominal
