Trailing Sockets

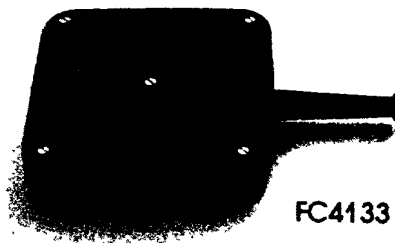

Manufactured in resilient rubber, Duraplug single and twin outlet trailing sockets are widely used throughout industry, commerce and the domestic market.

Fitted with substantial cord grips, they are specially designed for rugged use on extension leads.

The FCTN twin socket outlet incorporates a neon 'mains on' indicator safety facility. All trailing sockets are available in both black and white.

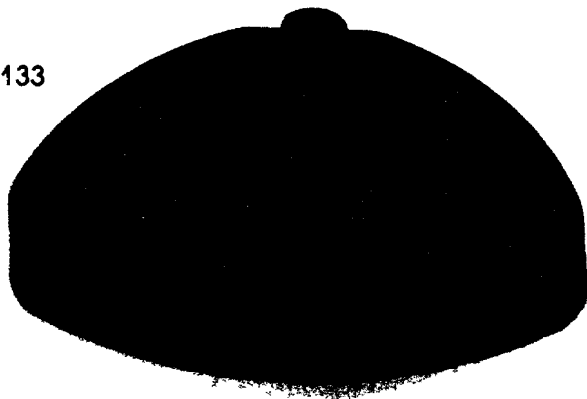

The FC4133 Four-way square trailing socket is constructed in oil resistant nitrile compound. The socket, fused internally, has a protected cable entry and a neon indicator.

Part Number	Current Rating	Socket Description
FC133	13 amp	Single (Shuttered)
FC153	15 amp	Single
FC53	5 amp	Single
FCT133	13 amp	Twin (Shuttered)
FCTN133	13 amp	Twin (Shuttered)
FC4133	13 amp	Four-way square with fuse (Shuttered)
