## Disposable Horizontal Fold Flat Masks

The Horizontal Mask design guarantees a comfortable, efficient face fit. The large surface area gives low breathing resistance and increases the masks ability to hold larger quantities of contaminant. The Horizontal Moulded Mask offers all the advantages of a flat type product. With or without a special low pressure exhale valve which ensures user comfort and reduces CO2/heat build up within the product.

- Available Protection: FFP1, FFP2, FFP3

## Moulded Disposable Masks

Does your Face Fit? JSP are re-launching a range of different sized moulded disposable masks, in anticipation of the upcoming changes in legislation.

JSP offer a fit testing service, both qualitative and quantitative, with its Respiratory Technicians available for making site visits. The JSP moulded masks offer high user comfort and when required; an exhale valve which increases user comfort and decreases CO2 and heat build up within the product.
