KT1D	KT0100A10
KT2	KT0200000
KT2D	KT0200A10

What is Thermolite® ?

Thermolite® provides warmth and comfort without weight, even when wet. Its the lightweight fabric that provides heavy duty performance, made with ADVANSA engineered hollow-core fibres that trap air for greater insulation. It dries 20 per cent faster than other insulating fabrics and 50 per cent faster than cotton. Gloves containing Thermolite® are the perfect layering glove as it's comfortable and lightweight, allowing more freedom of movement.
