

E45 Cream - 50g

Light and pleasant to use, E45 Cream's an effective, non-greasy emollient that's been clinically proven to treat and soothe dry, itchy, flaky, rough or chapped skin. We also recommend it for more serious dry skin conditions like eczema and dermatitis. It's quickly and easily absorbed and works by replacing lost moisture and forming a protective barrier, leaving your skin feeling soft and comfortable again.
