### Description

AMB8423 is the 868/915 MHz-version of the 2.4GHz radio module of the TI-Tools eZ430-RF2500.

The AMB8423 differs to 2.4 GHz of solution in the RF chip and in the antenna. All other functions of the boards as well as the interface are identical.

By use of the AMB8423 the Radio-Settings are to be adapted to the new frequency bands.

Detailed information about the interface and the programming is to be taken the TI documentation eZ430-RF2500 User's guide
