

PowerConnections

We have now increased our range of EuroConverter plugs to include many variations. Below is information for the CP1 Europlug Quickfit Converter.

CEE7 EUROPLUG TO UK CONVERTER (CP1):

2.5A EUROPLUG

EUROPLUG INSERTED INTO CONVERTER

PLUG FULLY SECURED WITH SCREW

The CP1 converter plug converts the 2 pin Europlug to the UK BS1363 system. Designed to accept all variations of Europlug including filtered types. Safe and reliable connection first time and every time. Save time and effort on assembly, simply slide in and fully tighten the screw. Available with either a 3, 5 or 10 Amp BS1362 approved fuse and either a Standard or Tamper Resistant screw. Please note: After fully assembling, a 'pull test' safety check is recommended.
