#### 1.0 SCOPE

This Product Specification covers performance requirements for the **Mini-Fit Plus HCS**<sup>™</sup> 4.20 mm (.165 inch) centerline (pitch) connector series. The **Mini-Fit Plus HCS**<sup>™</sup> use contacts stamped in High Performance Alloy for increased current carrying capacity which come available in Tin or Gold plating. Connector options allow for both Wire-To-Wire and Wire-to-Board configurations. Crimp terminals accept 16 to 20 AWG stranded wire.

#### 2.0 PRODUCT DESCRIPTION

<sup>\*\*</sup> Current rating is application dependent. Ratings shown in charts are intended as a guideline. Ratings are based on testing conducted with tinned copper conductor wire. Appropriate de-rating is required depending on factors such as higher ambient conditions, copper weight of PCB traces, gross heating from adjacent modules/components and other factors that influence connector performance.
