## PHONE AND FAX CABLES AND CONNECTORS

*Everything you need for smooth voice and fax communications.*

Whether you need a simple but effective phone detangler, sturdy wallplates, or high-quality cabling, we have it all. And when you need it fast, we offer same-day shipping for all of these phone and fax products.

### UNTANGLER

This clear plastic phone Untangler rotates 360 degrees to keep your phone cord from twisting or kinking.

Its gold-plated contacts dispose of crackling and other noisy interference.

### MODULAR COILED HANDSET CORDS

Replace your worn-out telephone handset cords with these black or ivory coiled cords. Fully shielded with braided copper, the Cords feature gold-plated contacts. Each cord is specially constructed to spring back again and again.

### RJ ADAPTER AND WALLMOUNT BLOCKS

Easily add or move a phone or modem—or lengthen a line—with these handy devices. They come in a variety of models: 4-wire, 6-wire, or 8-wire and straight- or cross-pinned.

### MODULAR WALLPLATES (PLASTIC)

Easily plug your RJ-11 and RJ-45 cables into these sturdy, plastic Wallplates. Choose from one-jack or two-jack models. Each model also features a variety of wiring configurations—4-wire, 6-wire, 8-wire, and more.

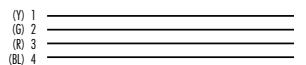

### RJ-11 AND RJ-45 MODULAR CABLING FOR VOICE AND DATA APPLICATIONS

Running at up to 1 Mbps, these all-purpose voice and data cables come in a variety of pre-cut lengths—or order a custom length for your specific application. They're perfect for phone systems, modem lines, fax machines, and more. Best of all, they come with a lifetime guarantee.

Consult the charts at the right to determine the type of pinning you need, and then specify it in your order.

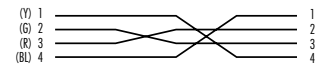

#### ELO4MS

##### RJ-11 (4-Wire) Straight-Through Pinning

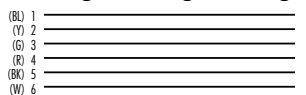

#### ELO4M

##### RJ-11 (4-Wire) Cross-Pinning

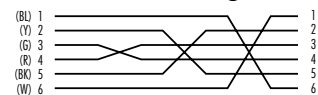

#### ELO6MS

##### RJ-11 (6-Wire) Straight-Through Pinning
