

Standard Laser Modules

From DLC, the reliability leader of diode laser module manufacturers

Diode Laser Concepts, Inc. offers the most versatile Laser Module on the market today. We offer a variety of wavelengths, beam configurations, and fan angles for line generation. Modules consist of a Type III, Class 3 hard coat anodized aluminum case at neutral potential electrically, on/off LED indicator, and 7 inch wire leads. Units also available with a scratch resistant sapphire window. Our internal driver circuitry utilizes automotive electronics to provide maximum surge and static protection to the laser diode. DLC precisely aligns all the optics at the factory, thus eliminating costly set up time.

DLC has made a commitment to producing the world's most reliable Diode Laser Module. Our modules are found in the tire, medical, wood products and textile industries, and we maintain a field failure rate of less than 0.5%. The industry's lowest!

DLC's focus on customer satisfaction is equally unmatched. We meet or exceed our quoted lead times over 97% of the time.

DLC is the answer for the customer who has been searching for quality, reliability, and excellent customer service. Our vision to produce the most reliable and competitively priced modules began with the company's inception in 1991, and has established DLC as a leader in the industry.

DLC is the future of the Diode Laser Module market. Call us today to discuss your application!

Innovative Technical Solutions

- Surge, Static, and Reverse Polarity Protection
- Variety of: Wavelengths
Beam Configurations
Fan Angles for Line Generation
- Anodized Aircraft Aluminum
- All Units Aimed to Within a 1/4 Degree of the Mechanical Axis

Unmatched Product Reliability

Unsurpassed Customer Service

ISO 9001 Registered

Competitive Pricing

Two Year Warranty

STANDARD DIODE LASER MODULES

STANDARD LASER MODULES General Specifications:	
Voltage Required:	5.0VDC (regulated)
Mechanical Axis Alignment to Optic Axis:	1/4 degree (1/2 angle)
Line Width: (Line Generators)	1mm (nominal)
Emissions Indicator:	Green LED
Case:	@ Neutral Potential
Internal Electronics:	Static, Surge and Reverse Polarity Protected
Wire Leads:	7 in. Long, (+) red, (-) black
Storage Temperature:	-40 deg. C to +80 deg. C
Warranty:	Limited 2 Year

ALL UNITS CDRH CERTIFIED EXCEPT FOR CLASS IIIb LASER PRODUCTS.

MADE IN THE USA.
