Restriction on the use of Hazardous Substances (RoHS)

At Tyco Electronics, we're ready to support your RoHS requirements. We've assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalog are identified as:

RoHS Compliant — Part numbers in this catalog are RoHS Compliant, unless marked otherwise. These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

NOTE: For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly "Out of Scope" of the RoHS Directive such as hand tools and other non-electrical accessories.

NOTE: Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced at right.

Getting the Information You Need

Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from Non-compliant to Compliant Products
- Ability to browse RoHS Compliant Products in our on-line catalog
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above
- So whatever your questions when it comes to RoHS, we've got the answers at www.tycoelectronics.com/leadfree

Introduction

As a founding member of the Small Form-factor Pluggable (SFP) Multi-Source Agreement (MSA), Tyco Electronics supports the market with a full range of SFP products, including single port and high density SFP products in single row and stacked configurations.

As the market's demand for increased functionality and higher data rates continues to grow, Tyco Electronics responds. Products introduced to support the rapidly expanding product line include: single cage press fit designs, integrated light pipes for port indicators, modified connector contact formation for improved signal integrity,

enhanced spring finger designs for increased EMI suppression, and riding heat sinks for improved thermal management.

Light Pipes:

Tyco Electronics provides a complete line of light pipes for single cages, ganged (single row), and stacked (double row) SFP products.

Enhanced EMI fingers:

As the data rates using the SFP form factor increase, the need for increased EMI suppression becomes imperative. Addressing both cabinet and module-generated noise, tests suggest Tyco Electronics' enhanced EMI fingers on the SFP cages can add up to 20dB of margin.

Riding Heat Sinks:

As the SFP form factor is adopted across multiple platforms, Tyco Electronics addresses the need for increased thermal dissipation by incorporating riding heat sinks. The riding heat sinks use direct contact to the pluggable module to draw heat away from its source.

As increased functionality and data rates exceeded 10 Gigabits per second, Tyco Electronics actively participated in the 10 Gigabit Serial (XFP) standard, and the X2 MSA, the Xaui based 10 Gigabit solution.

Small Form-factor Pluggable (SFP) System — Single Port

Product Facts

- RoHS Compliant
- Used in conjunction with 20 pin SMT SFP Connector
- Offers full metal housing for superior grounding and EMI suppression
- Solder, SMT, and Press Fit configurations available
- Single piece and two piece available
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- UL/CSA Report File E28476
- Connector supports data rates beyond 10 Gb/s
- Chassis grounds for pass through EMI protection to 12.5 Gb/s

Tyco Electronics, continuing to support the OEM market with high speed I/O product, offers a full line of Small Form-factor Pluggable (SFP) products, including SFP cages, connectors, dust caps, and

SFP direct attach cable assemblies. The SFP system can be used with any SFP MSA compliant optic or copper module. The cage system is a copper alloy with nickel sub-plate with a matte tin finish.

The SFP system is part of the Tyco Electronics family of Pluggable I/O solutions.

Applications

- Fiber Channel
- Fast/Gigabit Ethernet
- ATM/SONET/SDH
- InfiniBand (IB)

- 108-1950 SFP Cage

The Ganged SFP product line allows for single row, high density port designs to maximize the horizontal I/O space. The design allows for belly-to-belly orientation to maximize port density. The lateral port-to-port

spacing is minimized to 14.25mm. The entire product family is compliant to RoHS by using a matte tin, pre-plated copper alloy. Port configurations include 1x2, 1x4 and 1x6, with options including:

- Light Pipe Assembly
 - Enhanced EMI contact finger (page 11).
- Application tooling is required for press fit configurations.

Stacked (Dual Row) SFP System

Product Facts

- RoHS Compliant
- Utilizes fully integrated stacked connector
- Offers full metal housing for superior grounding and EMI reduction
- Incorporates press fit eye-of-the-needle contacts for both mechanical cages and electrical connector
- Connector contacts 30um gold plating w/contact surface treatment
- Hot Swappable
- Compatible with SFP MSA Compliant Modules
- Connector supports data rates beyond 10 Gb/s
- Application tooling available

Applications

- Switches/Routers
- Fiber Channel
- Fast/Gigabit Ethernet
- ATM/SONET/SDH
- InfiniBand (IB)

Technical Documents

Instruction Sheet

- 408-8848 SFP Cage Assembly Seating Tool
- 408-8849 SFP Cage Assembly Extraction Tool
- 408-8850 Stacked SFP Connector Extraction Tool

Application Specification

- 114-13103 Stacked SFP Connector & Cage Assembly

Product Specifications

- 108-2161 SFP Connector & Cage Assemblies

The Stacked SFP configuration allows original equipment manufacturers and designers the ability to maximize port density by decreasing the horizontal port spacing from 16.25mm, in the original

SFP MSA, to 14.25mm allowing a common wall to support two side by side ports:

- Minimizing height requirements
- Decreasing horizontal port spacing

Tyco Electronics supports 2x1, 2x4 and 2x6 configurations.

For increased flexibility, Tyco Electronics also offers a single row SFP cage with integrated connector, which is footprint compatible with its stacked SFP cages. See page 10 for details.

Part Number	Port Configuration	Height Profile	Light Pipes Included	Press Fit Exemption Tin-Lead on I/O Contacts

Product Specifications

- 108-2161 SFP Connector & Cage Assembly

For increased flexibility with Original Equipment Manufacturers', Tyco Electronics has developed a line of Ganged (Single Row) SFP products that are footprint

compatible with its Stacked SFP product line. The SFP cages are fully RoHS compliant with a Tin finish over Nickel subplate. The connector uses the same

press fit technology as was incorporated into the stacked SFP connector system. Products currently offered are in 1x4 and 1x6 configurations.

SFP with Enhanced EMI Gaskets

Product Facts

- RoHS Complaint
- Used in conjunction with 20 pin SMT SFP connector
- Offers full metal housing for superior grounding and EMI reduction
- Available in 1x1, 1x2, and 1x4 configurations
- Compatible with existing SFP MSA compliant modules
- Hot Swappable
- Enhanced EMI gasket, increasing the contact points between EMI contact fingers on bezel opening
- Double-sided EMI contacts
- 20dB EMI suppression improvement possible
- Connector supports data rates beyond 10 Gb/s

Applications

- Servers
- Storage
- Networking Equipment
- Switching (Telephone)
- SFP+

Technical Documents

Application Specification

114-13017 SFP Connector and Cage Assembly

Product Specification

108-1950 SFP Cage

As data rates exceed 2.5 Gb/s, there is a greater need for higher EMI suppression. Enhanced EMI gaskets are added to the existing SFP product line to meet the increased EMI requirements at higher data rates.

The SFP Cages with enhanced EMI Gaskets are

compatible with the existing SFP MSA panel cutout. The enhanced EMI gaskets offer increased surface area for improved EMI suppression.

EMI gaskets are double sided to reduce emissions between both cage and panel, as well as cage and module. Testing suggests a 20dB improvement on EMI

suppression can be achieved.

Initial product will focus on single port, ganged 1x2 and ganged 1x4 configurations.

SFP Direct Attach Cable Assemblies

Product Facts

- Supports SFP & SFP+ applications
- SFP+ active cable assemblies support data rates of 500 Mhz to 10 Gb/s
- Broadband — will work at all frequencies up to and including 8.5 Gb/s Fibre Channel and 10 Gb/s Ethernet
- Low cost solution for short reach applications (1-5 meters)
- Three stage sequencing — GND, VDD, Signal — addresses the sequence the pads engage the connector
- Compatible with MSA Compliant SFP cages

Applications

- Servers
- Storage
- Any 8.5 Gb/s Fibre Channel and 10 Gb/s Ethernet applications

- ATM/SONET/SDH (OC-192)

Technical Documents

Instruction Sheet
408-8723

Application Specification
114-13096

Product Specifications
108-2127

The XFP Multi-Source Agreement (MSA) specifies the next generation pluggable transceiver. Tyco Electronics' line of XFP products is fully compliant with the XFP MSA. The MSA specifies the mechanical and electrical requirements for the pluggable modules, cage hardware, thermal heat sinks, and PCB surface mount connector. This technology converts serial electrical signals to

external serial optical or electrical signals and is intended to be flexible enough to support OC192/STM-64, G.709, and 10 Gigabit Ethernet.

The goal of the XFP MSA is to provide a universal design for the transceiver that will be suitable for all applications (one size fits all).

- Intuitive latch
- Simple design based on SFP where possible

- Provide a range of options for:
 - EMI containment and thermal dissipation that are controlled by various EMI gasket, cage and heat sink designs specified by the customer.
 - Accommodate a wide range of industry applications
 - Provide an industry accepted, robust design that will be accepted by the industry.

X2 Guide Rail

Product Facts

- Fully supports X2 MSA
- Used in conjunction with 70 position SMT connector
- RoHS Compliant
- Offers full metal EMI shielding to contact X2 compliant module
- Application tooling available

Applications

- Switches
- Routers
- Desktop Applications

Technical Documents

Instruction Sheet

408-8983

Tyco Electronics, continuing to support the OEM market with high speed I/O product, offers an X2 compliant guide rail system. X2 is a next generation Xaui-based system that offers four channels of data throughput operating up to 3.125 Gb/s. The guide rail is used in

conjunction with an X2 compliant module.

Tyco Electronics offers both a stamped guide rail, with tin finish and a robust die cast rail, with nickel plate.

The X2 Guide Rail System is the latest product to be added to the

Tyco Electronics family of Pluggable I/O solutions. Other products include SFP cages and connectors, High Density SFP cages and connectors, XFP, SFP Direct Attach cable assemblies, and DWDM SFP.

Part Number	PCB Configuration	Material	PCB Attachment
1367608-1	Standard	Stamped Copper Alloy w/Tin Plate	Press Fit
1367610-1	Belly-to-Belly	Stamped Copper Alloy w/Tin Plate	Press Fit
1367709-1	Standard	Die Cast Zinc Alloy	Screw Down
1367710-1	Belly-to-Belly	Die Cast Zinc Alloy	Screw Down

Part Number	Description
1367337-1	70 pin, surface mount connector; 15µm gold plating
1367337-2	70 pin, surface mount connector; 30µm gold plating
1658198-1	70 pin, surface mount connector; 30µm gold plating with surface treatment

Note: All part numbers are RoHS compliant.

Dense Wavelength Division Multiplexing (DWDM) SFP System

Product Facts

- RoHS Compliant
- Used in conjunction with 20 pin SMT SFP Connector
- Offers full metal housing for superior grounding and EMI reduction
- Incorporates press fit eye-of-the-needle contacts for mechanical cages
- Hot Swappable
- Available in Press Fit version only
- Compatible with DWDM MSA compliant transceivers

Applications

- DWDM Switch applications
- High Density application requiring additional Thermal Management

In response to the DWDM market, Tyco Electronics introduced an SFP system incorporating a riding heat sink to the SFP to assist in managing excess heat when using SFP modules.

Tyco Electronics adopted a similar design to the industry accepted 10 Gigabit or XFP form factor.

The DWDM SFP solution will include a RoHS press fit cage, a stainless steel heat

sink clip, and an aluminum heat sink.

DWDM SFP Cage product is compatible with any DWDM MSA compliant transceiver.

Part Number	Product Description	PCB Attachment
1367643-1	1x1 DWDM SFP Cage	Press Fit
1367646-1	Heat Sink Clip, Stainless Steel	N/A
1829903-2	DWDM PCI Heat Sink (4.2mm)	N/A
1829904-2	DWDM SAN Heat Sink (6.5mm)	N/A
1829905-2	DWDM Networking Heat Sink (13.5mm)	N/A
1367645-1	DWDM Kit: Cage, Clip and PCI Heat Sink (4.2mm)	Press Fit
1367645-2	DWDM Kit: Cage, Clip and SAN Heat Sink (6.5mm)	Press Fit
1367645-3	DWDM Kit: Cage, Clip and Networking Heat Sink (13.5mm)	Press Fit
