

## MTP24K Series Audio Punch Block Panels

Wall mountable blocks allow for 24 channels of audio or 144 conductors of cable runs to be joined to a central joined location. The blocks are extremely lightweight but at the same time very durable and easy to work with.

### Features and Benefits

- Available in 11" high or high density 7".
- Each block is fitted with two grounding banana/screw ports that make linking multiple blocks together simple. Each grounding port is floated from the case.
- Because of our unique IDC/PPT design each contact accepts up to three wires which can be of mixed gauges of 22, 24, and 26AWG. Solid or stranded accepted.
- Ultra lightweight and durable each front is labeled for 124 channels.
- Available pre-wired or non-pre-wired. Pre-wired versions are a gas tight wire wrap on each contact. Unwired is punch down.
- Termination accessory kit included.
