

#### **QMA Connectors**

## Snap-On SMA Series of **RF Connectors**

#### **Product Facts**

- Positive snap-on interface facilitates assembly
- Intermateable with competitor product
- **■** Excellent RF performance to 6 GHz
- Ideal for Communications and Industrial Applications

Tyco Electronics' next generation high performance RF products QMA (Snap-On SMA) connectors series offers the same high quality and performance currently found in the standard Tyco Electronics SMA series but does not require the coupling nut torque. By integrating a snap-on feature to the design, denser packaging can be achieved, and the overall applied cost is dramatically reduced. The QMA connector series is excellent for communications as well as industrial applications. The QMA offering is designed for 100 mating cycles, operates through 6 GHz, and is completely intermateable with competitive QMA offerings. This new QMA product is not intermateable with standard SMA interfaces.

QMA connectors are available in a broad range of standard configurations.

including PCB and panel mount, flexible and semirigid cable, and adapters. Other options can be reviewed as well, including additional cable sizes, PCB surface mounting, and tape and reel packaging.

The QMA connector series is a cost effective solution for the challenging demands of today's commercial marketplace, with applications including cellular base station, handsets, and test and measurement. Call your local sales office or authorized distributor for additional information or samples of the QMA connector series.

Tyco Electronics is a leading supplier of RF and Microwave connectors and cable assemblies, and provides advanced technology products from well known and industry leading brands, including AMP and M/A-COM.

#### **Material and Finish**

Shells and Bodies — Brass, nickel

**Collars** — Phosphor bronze, white bronze plated

Outer Contacts — BervIlium copper. nickel plated

Center Contacts — Beryllium copper, gold plated

Dielectrics — PTFE

#### **Electrical Characteristics**

Frequency — dc - 6 GHz

Nominal Impedance — 50 ohms Voltage Rating — 335 Volts (VRMS max.) @ Sea Level

**VSWR** — 1.15 : 1 max. @ 6 GHz

Insulation Resistance -5.000 megohms min.

Insertion Loss — .25 dB Max @ 6 GHz

Dielectric Withstanding Voltage -1000 Volts (VRMS max.) @ Sea Level

#### **Contact Resistance**

Center Contact — 5 milliohms max. Outer Contact — 4 milliohms max.

## **Mechanical Characteristics**

Connector Durability -

100 mating cycles

Force to Engage — 27 Newtons Force to Disengage — 20 Newtons Retention Force (mated pair) -60 Newtons min.

Cable Retention — Dependent upon cable type

#### **Environmental Characteristics** Temperature Rating -

-40 to +125°C

Vibration — EIA-364-28, Test Condition VII, Condition D

Shock — EIA-364-27, Method H

Moisture Resistance — EIA-364-31, Method III

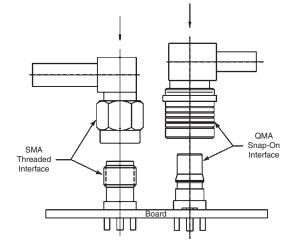

Thermal Shock — EIA-364-32

Note: Performance specifications are typical, but may not apply to all connector types.
