## Tyco Electronics

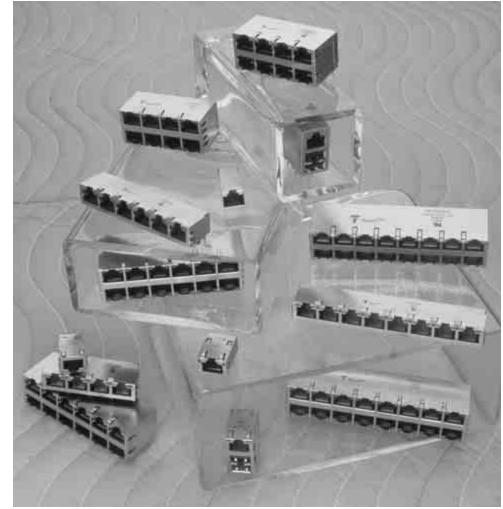

#### MAG45 Modular Jacks with Integrated Magnetics

#### **Product Features**

- PCB space savings
- Improved reliability and EMI performance over discrete magnetics
- Micro-welding of mag wire to PCB versus soldering
- Meets or exceeds FCC Part 68, IEEE 802.3, and ANSI X3.263 requirements
- Supports all appropriate and available PHY Chips and applications
- Extended Temp -40C to +85C available

#### **Product Qualification**

- 501 and 108 Qualification Test and Product Specification Reports available
- UL/CSA Recognized component
- For assistance in part selection, please refer to the Tyco Electronics E-Catalog
- Your Tyco Electronics Sales Representative or one of the Product Information Centers listed below are also available to assist

The MAG45 product line offers a broad range of available RJ45 modular jacks with integrated magnetics for 10/100 Base-T, Gigabit and PoE Enabled applications. Multiple configurations are available to include single port, tab up or tab down; single port USB/RJ45; single port low profile; ganged multiport, 1xN; and stacked multiport,

Note: All part numbers are RoHS compliant.

2xN. All available with or without LEDs. There are multiple LED combinations and color options available.

Available soon RJ45 with Integrated Magnetics/ PoE controller and MRJ21 product.

Available in Spring 2005 Pb Free/RoHS Compliant MAG45 product.

MAG45 Modular Jacks with Integrated Magnetics

#### MAG45 with PoE Controller

RJ45 + PoE Magnetics +

Silicon Power Controller Chip

**PoE Product Features** 

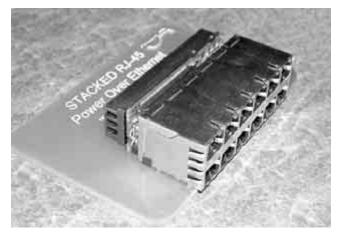

- Integrated Silicon PoE 12-port controller
  - 802.3af compliant
  - Auto and Enhanced mode capable
- Footprint
  - Press-fit configuration
  - Ease of routing on customer PCB
- Pin Assignments
  - Signal integrity benefits vs. standard footprint
- Three options in same footprint:
  - Integrated Magnetics Only
  - Integrated Magnetics, Enabled PoE
  - Integrated Magnetics, Integrated PoE
- 2250Vdc / 1500Vac electrical isolation per 802.3 requirements

**Customer Benefits:** 

- Simplify implementation of full PoE solution
- Board real estate savings
- Reduce board layout issues
- Integrate new and existing technologies into a single connector unit

Why Integrate the PoE Circuitry into the RJ?

- Single package (PoE, LED's, Magnetics, Heat Sink)
- Identical footprint for both Integrated PoE/Enabled and non-PoE
- Single design, single motherboard can be used for both PoE and non-PoE
- Same design can migrate between switches (including blades and fixed)
- Delivered fully tested and qualified, no need to bother with complicated PoE testing

- Reduced layer count/ Reduces cost of motherboard
- No PoE daughterboards
- Isolated PoE voltage provided directly from the power supply
- All per port components embedded in RJ
- Eliminates issues of voltage isolation on motherboard
- Reduces EMI risks

PoE Controller Features

- Power supplied over data contacts 1 & 2 and 3 & 6
- I2C Capability
- PoE chip provides power and command/control circuitry from motherboard power plane/bus
- Provides isolation between earth/building and signal ground

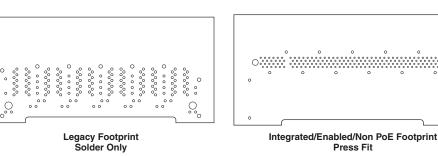

- Real time control of overload, underload, short circuits and under voltage states
- 0.5A current carrying capacity
- Full AC disconnect and classification
- 80V tolerant, surge protected system
- Registers for MIB 8 support and parameters adjustment
- Single voltage feeding (44 – 57VDC)
- Designed to support legacy capacitor detection
- How Does PoE RJ45 Work?
- Embedded inside each RJ45 is the Silicon Power PD64012 chip
- Each RJ45 is a 12 port PoE system, communicating

with each other to create a system of up to 48 ports

- The Host CPU controls the system via I2C
- Two main operating modes: Automatic/Enhanced Mode to match system customization requirements

For assistance in part selection, please refer to the Tyco Electronics E-Catalog.

| 1658828             | 10/100                  | No                     | Press Fit             | With/Without<br>Yellow/Green |  |  |

Same Mechanical Footprint, all versions.

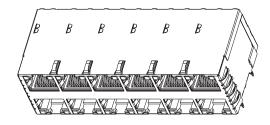

Same Electrical Footprint, pins 25 - 170, all versions.

Pins 1 – 24 PoE Control Circuitry Pins 25 – 170 Port Data Pairs and LEDs

Part Number 1658821 - 1658822

Part Number 1658825 - 1658828
