RS232 Level Shifter

Art.no.: 28560

Unit price:
9,14 EUR

plus sales tax and shipping

amount:

In basket

Description Technical data Downloads Related products FAQ

The cable can be connected to 6 pin connectors as e.g. at the deRFtoRCB adapter, Sensor Terminal Board or SAM-ICE-Adapter in order to shift the RS232 TTL level for the direct connection with a COM port.
Only Rx, Tx and GND are connected. All other D-Sub-9 contacts are unused.
