

# **Fluke 117 Electrician's Multimeter** with Non-Contact Voltage

# **Technical Data**

Actual size

#### **Compact true-rms meter for** commercial applications

The Fluke 117 is the ideal meter for demanding settings like commercial buildings, hospitals and schools. The 117 includes integrated non-contact voltage detection to help get the job done faster.

#### **Features include:**

- VoltAlert™ technology for non-contact voltage detection
- AutoVolt automatic ac/dc voltage selection
- LoZ: helps prevent false readings due to ghost voltage
- · Large white LED backlight to work in poorly lit areas
- True-rms for accurate measurements on non-linear loads
- · Measures 10 A (20 A overload for 30 seconds)
- Resistance, continuity, frequency and capacitance
- Min/Max/Average to record signal fluctuations
- Compatible with optional magnetic hanger (ToolPak<sup>™</sup>) for hands free operation
- CAT III 600 V safety rated

### **General specifications**

Accuracy is specified for 1 year after calibration, at operating temperatures of 18 °C to 28 °C, with relative humidity at 0 % to 90 %.

The accuracy specifications take the form of:  $\pm$  ([% of reading] + [counts])

| Maximum voltage between any terminal and earth ground | 600 V  |  |
|---|--|--|
| Surge protection                                      | 6 kV peak per IEC 61010-1 600 V<br>CAT III, Pollution Degree 2 |  |
| Fuse for A input                                      | 11 A, 1000 V FAST Fuse<br>(Fluke PN 803293)                    |  |
| Display   | Digital: 6,000 counts, updates 4/sec                           |  |
| Bar graph   | 33 segments, updates 32/sec                                    |  |
| Operating temperature                                 | -10 °C to + 50 °C  |  |
| Storage temperature                                   | -40 °C to + 60 °C  |  |
| Battery   | 9 volt Alkaline, NEDA 1604A/<br>IEC 6LR61                      |  |
| Battery life  | 400 hours typical, without backlight                           |  |

## **Accuracy specifications**

| Measurement                            | Range                             | Resolution | <b>Accuracy</b> $\pm$ ([% of reading] + [counts])   |  |
|--|-----------------------------------|------------|---|--|
| DC millivolts                          | 600.0 mV                          | 0.1 mV     | 0.5 % + 2   |  |

### Ordering information

#### Fluke-117

Electrician's Multimeter with Non-Contact Voltage

#### Included

TL75 Test leads, holster, User's manual and 9 V battery (installed).

Fluke. Keeping your world up and running.™

#### Notes:

<sup>1</sup> All ac voltage ranges except Auto-V/LoZ are specified from 1 % to 100 % of range. Auto-V/LoZ is specified from 0.0 V. Because inputs below 1 % of range are not specified, it is normal for this and other true-rms meters to display non-zero readings when the test leads are disconnected from a circuit or are shorted together. For volts, crest factor of  $\leq$  3 at 4000 counts, decreasing linearly to 1.5 at full scale. AC volts is ac-coupled. Auto-V LoZ, and ac mV are dc-coupled. <sup>2</sup> Frequency is ac coupled, 5 Hz to 50 kHz for ac voltage. Frequency is dc coupled, 45 Hz to 5 kHz for ac current.
