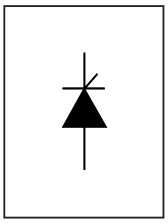
SAFEIR Series 70TPS..

PHASE CONTROL SCR



V_T < 1.4V @ 100A
I_{TSM} = 1400A
V_{RRM} = 1200, 1600V

Description/ Features

The 70TPS... *SAFEIR* series of silicon controlled rectifiers are specifically designed for high and medium power switching and phase control applications.
Typical applications are in input rectification (soft start) or AC-Switches or high current crow-bar as well as others phase-control circuits.
These products are designed to be used with International Rectifier input diodes, switches and output rectifiers which are available in identical package outlines.
