Model #: P104-000

Computer Cable, AT Serial Gold Adapter DB9M to DB25F

Highlights

- Converts a DB25 male serial port into a DB9 male port
- Fully shielded against EMI/RFI interference

Description

Tripp Lite's serial adapter has gold plated connectors and will connect a serial device with a DB25 connection to a DB9 cable or port. Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum. 28 AWG stranded tinned copper conductors are individually insulated in polypropylene. This minimizes cross talk and ensures high-speed, error-free transmission. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

System Requirements

- DB25M serial port on a PC

Package Includes

- Serial adapter block DB9M to DB25F gold connectors

Features

- Connects a DB25 serial device to a DB9 cable or port
- Gold plated contacts and connectors for superior conductivity
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
