

## Wide Opening Bench Vice

A very high quality, bench mounting vice with extra wide capacity clamping jaws. The vice is fully adjustable with tilt, turn and swivel around the advanced ball and socket mechanism which supports the jaws. The jaws are adjusted with a unique hand wheel mechanism; ideal for fast, yet precise, adjustment. The jaws have a capacity from 0±170mm and have soft padded rubber jaws to prevent damage to even the most fragile components which are to be clamped.

- Manufactured in the USA to precise, exacting standards
- 183mm high
- 1.4kg in weight
