

# RECORD POWER

SHEFFIELD - ENGLAND

## DRILL PRESS VICES

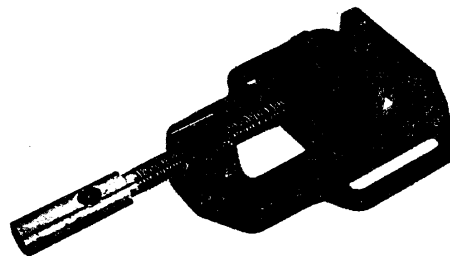

**DMD PV2**

**DMD PV3**

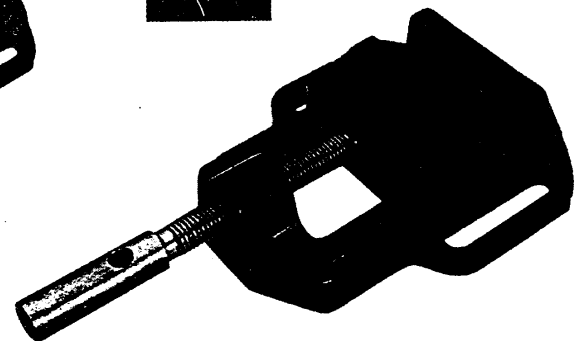

**DMD PV4**

Quality and Precision are the hallmarks of the Record Power Drill Press Vice range. Cast in grey iron, a material noted for its high damping capacity and resistance to stress.

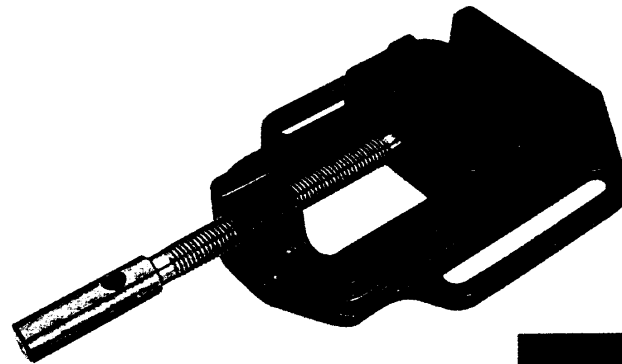

Each drill press vice features a two start rolled acme thread to speed the jaws from fully closed to fully open with a minimum of winding, and in addition feature vertical 'V' grooved jaws enabling almost any shape of workpiece to be clamped.
