DuoDock S

Docking station for notebook and desktop HDD
Super Speed USB 3.0 connection
Product Code: AK-IC08U3-BK

S series
Akasa S series hard drive enclosures utilise cutting edge USB 3.0 technology
and are designed to provide a high quality experience with Super Speed data
management.

Duo Dock design
DuoDock S is a SATA hard drive
docking station offering greater
flexibility than traditional external
enclosures. Designed to sit on your
desk enabling you to quickly read and
write data to SATA drives. Simply
place a drive into the Duo Dock slot
and off you go! Make use of your
spare SATA hard drives both 2.5"
notebook or 3.5" desktop (all
capacities). Blue LED base with on/off
switch can provide stylish illumination.

simple SATA SSD / HDD docking
with USB 3.0 for easy and
fast file managment

Super Speed

Super Speed USB 3.0 enables data transfer at 5 gigabits per second boosting enclosure performance up to 10 times that of their USB 2.0 predecessors. Super Speed interface can save you a lot of valuable time as you no longer need to wait so long to complete data transfer especially those large files like HD movies or system backups. Furthermore USB 3.0 enclosures remain fully backwardly compatible with USB 2.0 systems giving you great connection with millions of devices world wide.

- **Simple connection for 2.5" and 3.5" SATA and SSD drives**
- **Super speed USB 3.0 connection**
- **Backwards compatible with USB 2.0**
- **Stylish and compact design**
- **Blue LED base illumination with on/off switch**

Application	Docking station for notebook and desktop drives
Designed for	2.5" and 3.5" SATA hard drives
Interface	USB 3.0
Data transfer rate	5 Gbps (max)
Power input	12V DC (from 100-240V AC power adapter)
Blue LED light	Power, data transfer, base
Supported OS	PC Windows XP, Vista and 7 Mac OS X 10.3 and higher
Plug & Play	Yes
Hot Swappable	Yes
Dimensions	140 x 108 x 71mm
