General

This high-quality, ultra-flat compact keyboard has been designed for all applications where reduced space requirements and low weight are of great importance.

- For banking/financial applications or medical environments and for portable systems
- Also suitable for 19-inch rack applications
- Ideal for use with Slim Line PCs and notebook computers
- Ideal companion for G84-4700

Key benefits

- Uses mechanical keys from our ML series with high-precision key action; small physical dimensions:
- Keycaps arranged in 18 mm grid
- Exceptionally space-efficient
- Lightweight
- LED indicators for Num Lock, Caps Lock, Scroll Lock
- Reliability:
 - MTBF: 170,000 hours
 - Individual keys have long service life: 20 million key operations

Technical specifications

Power supply: 3.3-5 V/DC ± 10% SELV

Current input: typ. 10 mA

Connecting cable: approx. 1.70 m long

Temperature range:
Storage temperature: -20 °C to +60 °C
Operating temperature: 0 °C to +50 °C

Housing dimensions: (L x W x H)
282 x 132 x 27 mm

Weight: approx. 500 g

ML key modules with Gold Crosspoint contacts

Actuation characteristics: Soft contact

External keyboard for pen-based computer.
