

Model: OPR-3301

- Compact wireless barcode scanner
- Ergonomic pistol grip design for comfortable scanning
- Powerful scanning engine can read low-contrast barcodes, as well as high density (condensed) barcodes
- Uses reliable Bluetooth wireless technology, which allows the scanned data to be transmitted to any Bluetooth capable device
- Scanned data is stored on-board in case the user moves out of range, preventing data loss
- Light build; weighs just 100g
- Solid construction withstands 2m drop onto concrete surface
- Dimensions (HxWxD): 132x56x113mm

Contents: Scanner only

Model: CRD-3301

- Charging and communication cradle for the OPR-3301 scanner
- All information stored on the scanner is uploaded as soon as it is docked in the cradle
- Black ABS housing with LED status indicators
- Dimensions (HxWxD): 78x100x185mm

Contents: Cradle, USB cable, RS232 cable, ac adaptor and user guide
