### About Cd-free contacts

We have introduced cadmium-free type products to reduce environmentally hazardous substances. Please replace parts that contain cadmium with Cd-free products. Evaluate them with your actual application before use because the life of a relay depends on the contact material and load.

**Note:** Add the suffix "F" to the part number for the 1 Form A contact type. The 1 Form C, 2 Form A and 2 Form C contact types were originally Cd-free, hence the suffix "F" is not required.
