

10BASE-T QUAND SMT TRANSFORMER MODULES

- For RoHS part add suffix NL⁵
- Peak solder temperature rating per Table 5-2 in IPC/ JEDEC J-STD-020C
- Family of parts – common foot print and pinout with a choice of filtering for customized EMI performance
- Space-efficient – 12 ports across 3.6 inches for optimal PCB layout

Electrical Specifications @ 25°C — Operating Temperature 0°C to 70°C

Part Number	RoHS	Transformer Turns Ratio (±2%) Transmit	Sine Wave Inductance OCL (µH MIN) ¹	Interwinding Capacitance C _{ww} (pF MAX) ²	Leakage Inductance L _L (µH MIN) ¹	Return Loss 5-10 MHz (db MIN)		Common Mode Rejection Transmit (dB MIN)					Hipot (Vrms MIN)
						100 Ω	98 ±13 Ω	5 MHz	10 MHz	50 MHz	100 MHz	200 MHz	
PE-68051 ³	not available	1CT:1CT	100	—	—	-20	-15	-55	-50	-35	-25	-15	1500
PE-68062L	NL ^{6, 7d}	1CT:1.141CT	150	10	0.30	-20	-15	-60	-50	-30	-25	-20	1500
PE-68065L	not available	1CT:1.141CT	150	10	0.30	-20	-15	-60	-50	-30	-20	-15	1500
E5002 ¹	NL ^{7d}	1CT:2CT	180	10	0.30	-20	-15	-50	-40	-30	-20	-14	1500

1. OCL are measured at 20mVrms, 100KHz.
 2. C_{ww} and L_L are measured at 20mVrms, 100KHz.
 3. PE-68051 contains additional low pass filtering.
 4. For Tape & Reel packaging, add a suffix "T" to the end of the part number when ordering. e.g. E5002T.
 5. Add suffix NL for RoHS compliant parts, e.g: E5002 changes to E5002NL or E5002NLT (for Tape & Reel).
 6. Contact Pulse for RoHS compliant part availability.
 7. MSL=Moisture Sensitivity Level a=1 b=2 c=3 d=4.
- GENERAL SPECIFICATIONS:** U.S. Patent No. 5,015,981
- Insertion Loss:** Typically -0.5 dB maximum from 1 to 10 MHz PE-68051 typically is -1dB maximum.
- Crosstalk:** From 1 to 10 MHz is -35 dB minimum.

Mechanical

PE-68051, PE-68062LNL, PE68065L, E5002NL

Dimensions: $\frac{\text{Inches}}{\text{mm}}$

Unless otherwise specified, all tolerances are $\pm \frac{.010}{.025}$

Weight 4.0 grams
 Tube 15/tube
 Tape & Reel 250/reel

10BASE-T QUAND SMT TRANSFORMER MODULES

Application Notes

Pulse's 10BASE-T Quad SMT transformer modules are designed to interface with transceiver chips offered with internal wave shaping and filtering. Pulse developed the modules working closely with IC chip vendors for this "filter-on-chip" application such as: AMD, Crystal, Level One, National Semiconductor and Texas Instruments. The Pulse modules are available with varying turns ratios optimized for available transceiver chips. A cross-reference table listing chip vendor and part number by Pulse part number is illustrated below.

The Pulse modules offer different levels of electrical performance to meet all applications.

The Pulse PE-68065L contains transmit and receive isolation transformers to maintain signal integrity, suppress common mode noise, and supply equipment isolation per the IEEE 802.3 standard.

The Pulse PE-68062LNL and E5002NL provide transmit and receive isolation transformers as well as the high impedance common mode chokes. The common mode chokes are incorporated for added EMI suppression and are often necessary for FCC and CISPR 22 Class B certification.

The Pulse PE-68051 also provides transmit and receive transformers, transmit chokes and includes a low pass filter on each transmit path. This added transmit filtering when combined with the internal filtering of the IC improves the attenuation for designers striving to achieve compliance with the IEEE 802.3 standard.

In typical multiport applications, many channels are in close proximity. User compliance with FCC/CISPR 22 Class B requirements can be achieved

by applying rigorous design guidelines to suppress noise mechanisms. Attention to high-frequency signal paths, good PCB grounding techniques, and component placement are critical. Refer to the suggested layout on page 8.

All eight modules are encapsulated in a 40-pin surface mountable package. Mechanical features include:

1. **Lightweight** - approximately 4 grams for rapid pick-and-place.
2. **Compliant leads** - provide excellent solder joint reliability.
3. **Low profile** - under 6 mm to accommodate industry standard pick and place equipment capabilities.
4. **Compact form factor** - footprint allows the user to lay out four ports within the space of two double-stacked RJ-45 connectors or a total of 12 ports to a high density 50-pin connector.

Modules are packaged in tubes unless Tape & Reel is specified. Please add the suffix "T" such as PE-68049LT for Tape & Reel packaging, in increments of 250 pieces.

Pulse also offers a full line of 10Base-T filter modules, designed to IEEE specifications. We provide other pin-out configurations within this package. For more information, please contact one of the locations listed on the back page of this data sheet or check the Product Finder on the Pulse Web site at <http://www.pulseeng.com>.
