

Tools for Sensor Applications

Sensor Toolbox

Unified hardware, software and accessories for sensor applications

Target Applications

- Altimeters
- Barometry (portable and desktop)
- Blood pressure monitors
- Dialysis and drug delivery systems
- Gaming controllers
- GPS navigation devices
- Hard disk drives (HDD)
- Health care devices
- Heating, ventilation and air conditioning
- Home appliances
- Home entertainment
- Hospital beds and air mattresses
- Industrial control
- Liquid-level measurement
- Mobile phones
- Patient monitoring systems
- Personal computer peripherals
- Portable media devices
- Remote monitoring devices
- Robotics
- Sports diagnostic systems
- Toys
- Weather stations

Overview

Freescal's Sensor Toolbox offers a customizable selection of sensor development tools, accessories and software from Freescal's portfolio of acceleration, pressure and touch sensors. Sensors enrich designs with a broad range of capabilities in detecting real-world conditions, such as motion, touch or pressure.

Unified Architecture

The Sensor Toolbox is a distributed array of tools that provide hardware, software and accessories in a common friendly platform. All sensor evaluation kits are USB-enabled plug-and-play devices. The GUI interface uses a single software install that reduces complexity and improves reliability through periodic software updates. Complimentary software algorithms as well as demo, evaluation and tutorial modes through the GUI interface are available at www.freescale.com/sensortoolbox.

Enablement

The Sensor Toolbox was developed to help customers achieve quick time to market with Freescal's sensor products. It provides development ease with a unified set of

development software, hardware (including interchangeable daughter cards), documentation and accessories for Freescal acceleration, pressure and touch sensors. The Sensor Toolbox also includes complimentary sensor algorithms to help developers get the most from the Freescal sensor functions such as orientation, shake, tap, freefall, motion, tilt, positioning, shock or vibration with inertial sensors, PSI conversion for gauge pressure and altimetry for absolute pressure with pressure sensors, and water level monitoring, switch replacement and touch pad implementations with touch sensors.

Enrichment

Sensors enrich designs with a broad range of capabilities in detecting real-world conditions, such as motion, touch or pressure. The Sensors Toolbox expands the customer's design possibilities with ease of use and full capabilities. With a demo, evaluation and tutorial mode contained in the GUI interface, running the Sensor Toolbox couldn't be easier.

Key Features

- Multiple toolsets that work on a unified platform
- Complimentary software installer
- Demo, evaluation and tutorial modes included in the GUI demo
- Newer tools will continue to be introduced and added to the Sensor Toolbox

Benefits

- Demonstrates each sensor type (acceleration, pressure, touch) on a common platform
- Customizable plug-and-play
- Single software install reduces complexity and improves reliability
- Consistent sensor platform
- Demonstrates end application capabilities

Freescale is a leading provider of pressure, inertial and touch sensors and has offered MEMS-based sensors for 30 years. The sensor ICs complement Freescale's broad portfolio of ZigBee® technology, microcontrollers, microprocessors, digital signal processors, analog ICs and development tools to offer system solutions to customers.

Sensor Family	Kit Number	Board Type	Description
Accelerometer	LFSTBBAT3	Accelerometer Power Board	3V Battery Board
	LFSTBBAT9	Accelerometer Power Board	9V Battery Board
	LFSTBUSB	Accelerometer Interface Board	USB Communication
	LFSTBEB8450	Accelerometer Development Board	MMA8450Q Accelerometer
	RD3924MMA8450Q	LFSTBEB8450, LFSTBUSB	Contains the USB communication board and accelerometer development board for evaluating the embedded MMA8450Q functionality
	LFSTBEB7660	Accelerometer Development Board	MMA7660FC Accelerometer
	LFSTBEB7455	Accelerometer Development Board	MMA7455L Accelerometer
	LFSTBEB7361LC	Accelerometer Development Board	MMA7361LC Accelerometer
Pressure	KITMPXV5004DPEVB	Pressure Sensor Development Board	MPXV5004DP Pressure Sensor
	KITPRESSURE1EVB	Pressure Sensor Interface Board	USB Communication
	KITMPXA6115AEVB	Pressure Sensor Development Board	MPXA6115AC6U Pressure Sensor
	KITMPL115A1EVB	Pressure Sensor Development Board	MPL115A1 Pressure Sensor
Touch	KITMPR121EVM	Touch Sensor Kit	MPR121 Touch Sensor
	KITMPR03xEVM	Touch Sensor Kit	MPR03x Touch Sensors
Starter Kit	KITSTARTER1EVM	LFSTBEB7660, LFSTBUSB, KITMPXV5004DPEVB, KITPRESSURE1EVB, KITMPR03XEVM	Subset of the latest acceleration, pressure and touch sensor development tools
Second Edition Starter Kit	KITSTARTER2EVM	KITMPR121EVM, LFSTBEB8450, LFSTBUSB, KITMPL115A1EVB, KITPRESSURE1EVB	
Starter Kit Development Boards Only	KITSTBLITE2EVM	KITMPR121EVM, LFSTBEB8450, KITMPL115A1EVB	
SENSORS_TOOLBOX_INSTALLER			GUI Software
