Features

- One, two, or four independent, 2Gbit channels (Up to 400MB/s, full duplex)
- LC, SFP, multi-mode optics
- 64 bit/133MHz PCI-X bus (backward compatible with 32-bit and 33/66/100MHz buses)
- Auto-negotiation for legacy connect (1 or 2Gbit)
- Concurrent SCSI and IP protocol
- Software supports switch and loop (private and public) topologies
- FC-Tape support
- SNIA HBA API compliant
- MPT Flash utility – remote updates of firmware and FCODE
- Fusion-MPT™ architected
- 3-year limited warranty

Benefits

The LSI Logic LSI7102XP-LC single-channel PCI-X Fibre Channel Host Adapter is a low-cost Fibre Channel solution designed in the low-profile PCI form factor ideal for 1U/2U servers
