

8 Port UTP/STP Compact Ethernet Switch

This 8 port Ethernet LAN switch is easy to install and ideal for small office/home office (SOHO) applications, shops and small departments.

Auto-negotiation of speed, duplex and MDI/MDI-X modes eliminates installation problems. A compact external AC/DC power unit powers the switch and a metal case protects the switch from damage.

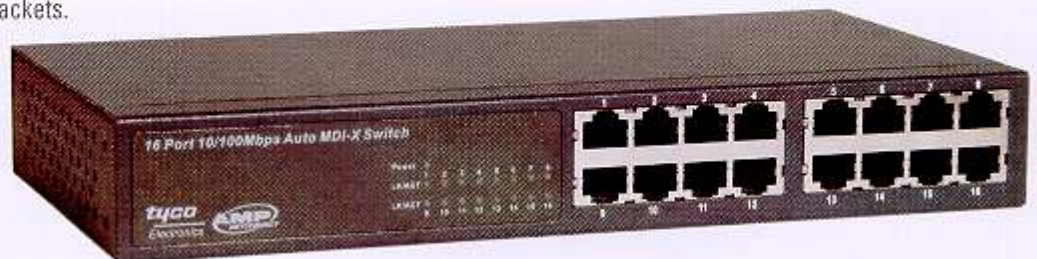

Description	Part Number
8 Port Compact S/UTP 10/100Mbps Switch	1591036-1

16 Port UTP/STP Compact Ethernet Switch

This very simple and easy to install 16 port Ethernet LAN switch is ideal for small offices or departments.

Installation is greatly simplified by full speed auto-negotiation and auto MDI/MDI-X detection that eliminates the need for crossover cables. An internal auto-ranging AC/DC power unit powers the switch and the unit can be 19" rack-mounted using the supplied brackets.

Description	Part Number
16 Port Compact S/UTP 10/100Mbps Switch	1591070-1

24 Port UTP/STP Compact Ethernet Switch

These very simple, compact and easy to install 24 port Ethernet LAN switches are ideal for medium size offices and departments. Installation problems are eliminated by the advanced auto-negotiation of speed, duplex and MDI/MDI-X modes. The switch can be rack-mounted into either 10" or 19" frames and includes the brackets to mount to a 19" rack. A robust metal case protects the switch against damage. An internal auto-ranging AC/DC power
