256-bit data encryption for advanced protection.

Protect even your most sensitive data on Windows®-based systems with Kingston's DataTraveler® Secure (DTS) USB 2.0 Flash drive. Quickly transfer and safely carry digital files wherever your business takes you. Ideal for all types of digital content from multimedia presentations to support files.

The unique combination of hardware- and software-based security on the DataTraveler Secure gives you unprecedented access control and encrypted data protection on Windows-based systems. With DataTraveler Secure's MyDataZone software, you can set password access control for a private data storage area that utilizes 256-bit Advanced Encryption Standard (AES) hardware-based encryption. If lost, this advanced hardware encryption system will continue to protect the data in your drive's privacy zone, even under the toughest conditions.

Designed to utilize the high bandwidth of the USB 2.0 High-Speed interface, the DataTraveler Secure cuts to the chase when transferring your data with its impressive read and write speeds of up to 24MB/sec. and 10MB/sec.

For ease of use and personalization, My Traveler software helps you organize the DataTraveler's contents, set language preferences and synchronize files with the host device. Add your company's logo to the DataTraveler Secure, to help with branding and/or asset management.

DTS's waterproof rating continues to keep data safe and for added protection, DTS is designed with a metal casing. For additional peace of mind, DataTraveler Secure is backed by a five-year warranty and Kingston's legendary quality, service and support.

Optional Accessories

- KUSBAP – DataTraveler Accessory Kit

Features/Benefits:

- Secure – utilizes 256-bit Advanced Encryption Standard (AES) hardware-based encryption (privacy zone)
- Rugged – titanium-coated stainless steel casing
- Fast – data transfer rates of up to 24MB/sec. read and up to 10MB/sec. write¹
- Enhanced – for Windows® ReadyBoost™² on Vista-based systems
- Safeguarded – includes MyDataZone access security software for Windows
- Simple – just plug and play into a USB port
- Easy to Use – includes My Traveler file management software
- Guaranteed – five-year warranty³
- Customizable – co-logo program available

Specifications:

- Dimensions – 3.06" x 0.9" x 0.47" (77.9 mm x 22 mm x 12.05 mm)
- Casing – Titanium-coated stainless steel
- Capacities⁴ – 512MB, 1GB, 2GB, 4GB, 8GB
- Waterproof – protects against water damage⁵
- Operating Temperature – -32°F to 140°F (0°C to 60°C)
- Storage Temperature – -4°F to 185°F (-20°C to 85°C)
- Compatibility – Win 2000 SP3 or higher, Win XP SP1 and above, Windows® Vista™

Kingston part numbers:

DTS/512, DTS/1GB, DTS/2GB, DTS/4GB, DTS/8GB

¹ Speed may vary due to host hardware, software and usage.

² DTS capacities of 1GB and greater only. ReadyBoost only supported on DTS public zones and when enabled access to the Privacy Zone is disabled.

³ Support for listed compatible OS and Service Packs.

⁴ Please note: Some of the listed capacity is used for formatting and other functions and thus is not available for data storage. For more information, please consult Kingston's Flash Memory Guide at kingston.com/Flash_Memory_Guide.

⁵ Up to 4 ft.; conforms to IEC 60529 IPX8. Product must be clean and dry before use.
