Kingston DataTraveler II Plus — Migo Edition

kingston.com/flash

More capacity, more freedom.

Kingston's DataTraveler® II Plus — Migo Edition Hi-Speed USB Flash drive gives you the freedom to work on multiple PCs, using the contents of your own desktop's email clients and Internet browser settings/favorites, plus your files and folders. The DataTraveler II Plus — Migo Edition high storage capacity gives you the flexibility to work on the following programs:

Email:
Windows® Mail
Outlook® 2000, 2002, 2003, and 2007 with POP/SMTP and Exchange Server[1]
Outlook Express (5.0, 6.0)
Mozilla® Thunderbird (1.5, 2.0)

Internet Browsers:
Internet Explorer® (5.0–7.0)
Mozilla Firefox (1.5, 2.0)

Migo System Requirements:
Operating System: Microsoft Windows Vista™, XP (SP1, SP2), and 2000 (SP4)

Take the DataTraveler II Plus — Migo Edition with you to work at your field office, home office, or client's computer — anywhere you have access to a PC with the applications you use. When you return to your PC, Migo synchronizes your work to keep your data current. With the amount of data you can store on a single DataTraveler drive, create and maintain different workspace profiles (e.g., home, work, client) and password protect them with the SecureTraveler[2] privacy software (administrative rights required).

As you step though the Migo Wizard, the on-board Migo meter keeps track of available capacity and tells you how much space you need for selected files and settings.

For added flexibility, Universal Mail Format[3] lets you access your email on applications other than the ones you use at home or at the office. If a guest PC doesn't support your main email application, Migo will let you access your email using other applications such as Windows Mail, Outlook and Outlook Express.

Robust, flexible and easy to use, DataTraveler II Plus — Migo Edition is customizable with your logo and backed by legendary Kingston® reliability plus a five-year warranty and 24/7 tech support.

Features/Specifications:

- Capacities[4] — 2GB, 4GB, 8GB

- Dimensions – 2.67" x 0.829" x 0.355" (67.7mm x 20.8mm x 9.0mm)

Kingston part numbers:

DTII+M/2GB, DTII+M/4GB, DTII+M/8GB

---

1 Supports Exchange Server® (remote systems require a VPN connection) and POP3/SMTP.

2 Administrative privileges are required. Creating a Privacy Zone will result in loss of all data on the DataTraveler.
  Back up all data stored on the DataTraveler prior to creating a Privacy Zone.

3 Universal Mail Format requires additional storage. Universal Mail Format only synchronizes email and contacts and does not currently support Mozilla® Thunderbird.

4 Some of the listed capacity is used for formatting and other functions and thus is not available for data storage.
  For more information, please consult Kingston's Flash Memory Guide at kingston.com/Flash_Memory_Guide.

5 Speed may vary due to host hardware, software and usage.

6 Windows ReadyBoost™ not supported
