Single Fiber Duplex Modules

HOD2294-111/EBA
HOD1121-411/EBA

FEATURES

- Full multiplex over single fiber
- DC to 160 MHz link bandwidth
- Link budgets of 2 km [1.24 miles] or greater
- 40 dB isolation
- SC connector
- Other options available
- VCSEL is Class 1 eye safe

APPLICATIONS

- Full duplex data transmission
- Multiplexing two signals to a single fiber
- LED and laser coupled power measurements and reflected power measurements (depending upon the configuration of the duplex module)

A pair of Honeywell HODXXX-XXX/EBA series dual wavelength fiber duplex modules allows full duplex communications over a single fiber link. They may also be used where a dual fiber solution is neither possible nor economical.

Each duplex module consists of one on-axis port and one off-axis port, each configured with the appropriate devices. These devices are coupled to the single fiber via integral lenses and a 3 dB wavelength differentiating mirror within the duplex module body. In this configuration, two duplex modules can communicate in the same direction simultaneously and independently of each other. Depending upon the receiver circuitry used, links of 2 km [1.24 miles] or greater are possible.

The following catalog listings indicate the two devices used in each duplex module.

- HOD2294-111/EBA:
 - 850 nm VCSEL (Vertical Cavity Surface Emitting Laser)
 - 1300 nm laser
- HOD1121-411/EBA (corresponding duplex module):
 - 850 nm LED
 - 1300 nm LED

Other standard options are available on request. These include two LEDs in one duplex module for single fiber multiplexing, PIN diodes, VCSEL emitters or any other preferred devices. Housing options include SC and ST optical ports or a high profile housing for mounting duplex modules side by side. Future connectors will likely include SMA, FC, LC and E2000 options. See the catalog listing numbering scheme on the back page for a complete list of available configurations.

⚠ WARNING

MISUSE OF DOCUMENTATION

- The information presented in this product sheet (or catalog) is for reference only. DO NOT USE this document as product installation information.
- Complete installation, operation and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

⚠ WARNING

PERSONAL INJURY

- DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

Single Fiber Duplex Modules

HOD2294-111/EBA

HOD1121-411/EBA

ELECTRO-OPTICAL CHARACTERISTICS FOR THE HOD2294-111/EBA

Absolute Maximum Ratings (25 °C unless otherwise noted)

Continuous Forward Current	20 mA (VCSEL), 100 mA (850 nm LED)
Reverse Voltage	5 V (VCSEL), 1 V at 10 μ A (850 nm LED)
Lead Solder Temperature	260 °C [500 °F], 10 sec
Operating Temperature	0 °C to 70 °C (32 °F to 158 °F)
Storage Temperature	-40 °C to 100 °C (-40 °F to 212 °F)

CAUTION

STRESS DAMAGE

Functional operation of the device at or above "Absolute Maximum Ratings" for extended periods of time may affect reliability.

Failure to comply with these instructions may result in product damage.

Transmit: 1300 nm Laser (All tests made at 25 °C unless otherwise specified.)

Parameter	Symbol	Min.	Typ.	Max.	Units	Test Conditions
Fiber Coupled Power	P_{OC}	200 -7.0	280 -5.5		μ W dBm	$I_F=20$ mA 50/125 μ m fiber
Laser Diode Reverse Voltage	V_{RLD}			2.0	V	
Photo Diode Reverse Voltage	V_{RPD}			10	V	
Photo Diode Forward Current	V_{FPD}			1	mA	
Slope Efficiency	SE	0.3	0.35		mW/mA	CW, $P_o=5$ mW
Threshold Current	I_{TH}		12	20	mA	CW, $P_o=5$ mW

*The second digit of each pair of port device numbers corresponds to the specific device used.

Example: HOD5721-412/EBA defines:

57	850 nm P+P in Port 1 (on axis)
21	1300 nm LED in Port 2 (perpendicular axis)
-	
4	<20 ns Rise/Fall Time (850 nm P+P)
1	<3 ns Rise/Fall Time (1300 nm LED)
2	20 dB link budget when used with corresponding duplex module
/	
E	SC connector
B	PCB mounting
A	Normal leads

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Contact your local sales office for warranty information. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace without charge those items it finds defective. The foregoing is Buyer's sole remedy and is **in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose.**

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

For application assistance, current specifications, or name of the nearest Authorized Distributor, check the Honeywell web site or call:
