Honeywell

Interactive Catalog Replaces Catalog Pages

Honeywell Sensing and Control has replaced the PDF product catalog with the new Interactive Catalog. The Interactive Catalog is a power search tool that makes it easier to find product information. It includes more installation, application, and technical information than ever before.

Click this icon to try the new Interactive Catalog.

ZS-00370-01

ONE PART 15/32" PROXIMITY SENSOR

Description:

Environment-proof self-contained proximity sensor enclosed in a rugged hermetically sealed ceramic/stainless steel housing, designed to meet the requirements of aerospace applications.

Operation by the Eddy Current Killed Oscillator (ECKO) principle, which is used to detect metallic objects passing in front of the sensing face. Once a target metal is detected, a trigger signal is produced which is then passed through the output conditioning circuitry to give a high or low output, depending on the sensor application.

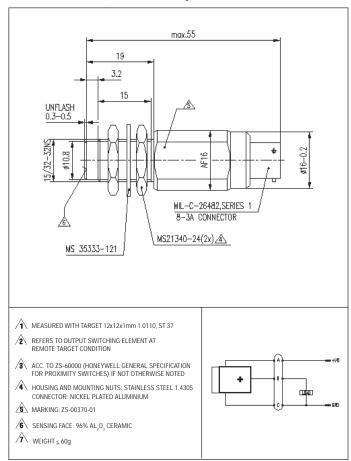

Features:

- All metal sensing
- Integral MIL-C 26482 connector
- High level EMC and lightning strike performance
- High level of electronics protection

Typical Applications:

- Aircraft landing gear
- Flight control surfaces
- Aircraft door monitoring

Dimensions in mm (for reference only)

Specifications
