

Product Description

In design and conception the eco|mate^m program meets the high requirements for applications in industrial technology. Easy operation, reduced dimensions and a more robust design to withstand harsh conditions are only a few of the features of the series.

The connector's main area of application is in the fields of plant construction and machine building. The connector is principally used for measuring and controlling applications such as the control technology for motive engineering, but may also be used for medical. The series is comprised of a large selection of housings and shapes, as well as models with screw, solder and crimp termination.

Features:

- Circular Connectors with 3+PE and 6+PE contacts
- Housing components made from premium molding material
- Cable housing straight or angled
- Vibration safe connection through stable and non-sensitive screw locking
- Protection class IP 65/67 in mated condition in accordance with DIN EN 60526
- Clamping ring or internal strain relief

Advantages:

- Quick and easy assembly
- Screwed cable gland with clamping ring
- Strain relief and mounted gasket all in one component
- Cable housing, straight or angled, for the cable diameter 6 - 12,5 mm
- Robust thread for the screwed cable gland
- Ergonomically designed product range for safe handling, even under harsh working conditions
- Pre-loaded ground contact
- Fastening for the protective caps on the housing of the receptacles
- The eco|mate^m program is compatible and interchangeable with the C16-1 series

Additional standards:

- The 6+PE model corresponds to DIN 9684-1 interface to the signal transmission on agricultural machines and tractors

The stated technical values refer to the use as connector without breaking capacity (COC).

If these components are used as plug and socket device a reduced current carrying capacity has to be considered. The characteristics have to be requested from the manufacturer.

Order Information

Color coding

Upon request the coupling ring of the plugs and the housings of the receptacles can be delivered in the colors red, green, blue, yellow and grey.
Min order quantity = 1000 pcs. per type.

Mechanical coding

Achieved with special coding pins which are inserted into contact cavities.
Min. order quantity = 1000 pcs. per type.

Crimp version

Order number do not include crimp contacts. Please order separately (see page 10).

Mounting cut-out²⁾

For sealing reason this surface needs to be level and free of burrs.

¹⁾ Crimp contacts see page 10 / Crimp tooling see catalogue "Tools". ²⁾ Mounting hole Ø 22 without chamfer, suitable sealing for screws is necessary.
