

General

Line Cord — Part No. GA400

7 1/2 foot, 3-conductor line cord to mate with models with in the catalog. 1250 watt, 10A - 125 VAC SVT, Black, UL, CSA.

Not recommended for patient care applications due to leakage current of the line cord.

Insulating Boot — Part No. FA601

Plastic shroud to cover back of IEC connector style filters with style 1 terminals for EC, ED, EEA, EEB, EEJ, EF Series.

J Series - Voltage Selecting and Fused Connector

Tool — Part No. JA500

Extractor tool for removal and insertion of voltage selector card in J series.

Voltage Card — Part No. JA302

Two-voltage selection card for use with J series. Marked 115V/230V.

Voltage Card — Part No. JA304

Four-voltage selection card for use with J series. Marked 110V/120V/220V/240V. One JA304 comes standard with each J series module.

L Series - Power Entry Modules

Fuseholder — Part No. LA200

Accommodates one 1/4" x 1-1/4" North American fuse for L series only.

Fuseholder — Part No. LA201

Accommodates one 5 x 20mm metric fuse for L series only.

Voltage Wheel — Part No. LA302

Two-voltage selection drum for use with HL4 and DL4 models. Marked 115V/230V.

Voltage Wheel — Part No. LA303

Three-voltage selection drum or use with HL4 and DL4 models. Marked 110V/220V/240V.

Voltage Wheel — Part No. LA304

Four-voltage selection drum for use with HL4 and DL4 models. Marked 100V/120V/220V/240V. One LA304 comes standard with each HL4 and DL4 model.

Blank — Part No. LA400

Blank to replace switch in single voltage selection models. DL1 and HL1 models.

Insulating Boot — Part No. LA601

Plastic shroud to cover back of EDL and EHL power entry modules preventing inadvertent access.

M Series - Power Entry Modules

Assembly — Part No. MA100

Power interconnect assembly for voltage select models of the M series. Simplifies connection of power entry module to power supply. Designed for use with either filtered or unfiltered voltage selection models. 8.5" wire leads.

- Part No. MA101** - Plug Only
- Part No. MA102** - Pins on Strips
- Part No. MA103** - Pins on Reel (7,000 pins)
- Part No. MA104** - Pins Only

Assembly — Part No. MA400

Medical safety bracket kit for use with HM models. Bracket allows customer to undergo UL544 abnormal condition testing without removal of fuse(s) in power entry module.

- Part No. MA401** - Bracket Only
- Part No. MA402** - Standoff Only

Voltage Card — Part No. MA302

Two-voltage selection capability for use with M series power entry modules. Marked 120V/240V. One MA302 comes standard with two-voltage M series modules.

Voltage Card — Part No. MA304

Four-voltage selection capability for use with M series power entry modules. Marked 100V/120V/230V/240V. One MA304 comes standard with four-voltage M series modules.

Insulating Boot — Part No. MA601

Plastic shroud to cover back of VM and EFM power entry modules preventing inadvertent access to tracings.

- Part No. MA601** - fits M4S versions
- Part No. MA602** - fits M1S versions
- Part No. MA603** - fits M4 versions
- Part No. MA604** - fits M1 versions

P Series

Assembly — Part No. PA100

Power connector assembly for voltage select modules of the P series. Simplifies the connection of power entry module to power supply. Designed for use with either filtered or unfiltered modules. Includes 6 inch wires (4).

- Part No. PA101** - Plug Only
- Part No. PA102** - Pins Only
- Part No. PA105** - Same as PA100, except has 2 wires for no voltage selection models

J Extender — Part No. PA400

Extends P series module to fit J panel cutout. Cannot be used with B shield.

L Extender — Part No. PA410

Extends P series width to fit L panel cutout (use two per module). Unshielded versions only.

C Extender — Part No. PA420

Extends P series height by .20"
