

# ETA-USA

## High Quality Switching Power Supplies

Single

240W

DC22~32V/36~72V  
DC220~400V

# DC/DC CONVERTER

## HIGH DESITY MODULE

### SINGLE-OUTPUT EPK-SC

SERIES

EPK-SC300 (DC300V)

61X91.4X12.7 (mm)

MODEL	OUTPUT		EFFICIENCY
	VOLTAGE	CURRENT	
EPK05SC300	5V	40A	76%
EPK12SC300	12V	20A	78%
EPK15SC300	15V	16A	80%
EPK24SC300	24V	10A	79%
EPK28SC300	28V	9A	81%

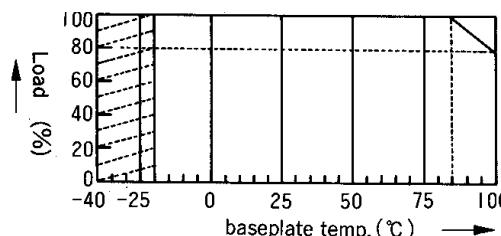

The EPK-SC DC/DC converter has isolatin between primary and secondary, and is the most advanced high density high efficiency modular power supply components.

These modules are designed to reduce product development time, enhance system performance, is ideal for cost-conscious designs by simple circuit diagram.

The EPK-SC provides a fast and economical route to complete power supply for demanding Industrial, Telecommunication and Computer applications.

### Special Features

1. High Reliability... 1 million hours MTBF
2. Wide Circumstances Operation- 20°C~100°C baseplate operating temperature.
3. Remote Control
4. OVP, OCP, OTP, Output monitoring
5. UL, C-UL(CSA), TUV approved (except EPK-SC28)

\* mark: start-up gvaranteed.

# EPKJ-OOC / Specification

Model (Input Voltage)	EPK05SC			EPK12SC			EPK15SC			EPK24SC			EPK28SC														
	28	48	300	28	48	300	28	48	300	28	48	300	28	48	300												
<b>Output</b>																											
Voltage	5V			12V			15V			24V			28V														
Voltage tolerance	(Output V) ± 1 [%] MAX.																										
Ripple & noise	(Output V) X 3 [%] MAX																										
Line regulation	(Output V) X 0.2 [%] MAX.																										
Load regulation	(Output V) X 0.2 [%] MAX.																										
Temperature coefficient	0.02 %/°C (-20~85°C)																										
Drift / Time effect	(Output V) X 0.5 [%] MAX.																										
Rize time	10mS MAX (28, 48VDC Input) / 300mS MAX. (300VDC Input)																										
<b>Isolation</b>																											
Isolation voltage																											
Input - Output	2000VAC 1 Minute (48, 300VDC Input) / 500VAC 1 Minute (28VDC Input)																										
Input - Case	2000VAC 1 Minute (48, 300VDC Input) / 500VAC 1 Minute (28VDC Input)																										
Output - Case	500VDC 1 Minute																										
Isotation resistance																											
Input - Output - Case	50M MIN. (500VDC)																										
<b>Environment</b>																											
Operating temperature	-20~100 [°C]																										
Storage temperature	- 40~100 [°C]																										
Humidity	95 [%RH] MAX.																										
Vibration	(5~55Hz) 2G X, Y, Z Each																										
Shock	20G																										
<b>Additional functions</b>																											
Over current protection	current limiting																										
Over voltage protection	clamp																										
Temperature	Output shutdown (at 100°C~120°C base plate temp) auto-recovery																										
Wieght	255 [g]
