## ZVC65 Series

### Single output 25W to 65W AC/DC External Adapters

The EOS ZVC65 "*Mini Z model*" adapters range in power from 25 watts to 65 watts and are available in popular voltage outputs from 5 volts to 24 volts.

With millions in operation worldwide with leading product brands applications include low power LAN/WAN routers, hubs and switches, industrial products, computing equipment, multimedia gear and many general electronics applications. These small package, big power adapters provide greater than 88% efficiency converting AC power to DC. The slim line Mini Z measures a compact 4.220"x 1.724" x 1.182" case packing 8 watts per cu. in. and weighs under 10 ounces. The ZVC65 Mini Z adapters feature auto ranging AC input from 90v to 264v, operating temperature of 0 to 40 degrees C and have worldwide safety and agency certifications and are RoHs compliant. Our factory also is ISO140001 environmentally approved.

#### Features :

- > High power density to 8w/in<sup>3</sup>
- > Efficiency to 90%
- > Smallest 65W adapter
- EN55022-B, FCC Part 15 Level B Noise
- Class 2 safety approvals
