

U1782A SMD Tweezer

Key Specifications

- Length: 770 mm
- Recommended to measure SMD components at the following conditions: $C < 200 \mu\text{F}$, $L < 20 \text{ mH}$ or $R < 10 \text{ MOhms}$
- Tweezer for testing capacitance, inductance or resistance of SMD components
- Guard ends to be connected to guard terminals of meter for better noise immunity

Description

The Agilent U1782A is a tweezer to be used with the U1700 Series Handheld Capacitor and Handheld LCR Meters. The tweezer is useful when measuring SMD-type components. For better noise immunity, the tweezer has a GUARD end to be connected to the meter's GUARD terminal.
