## Impregnated Corrugated Trays

### Superior Material Handling of Unsoldered Populated Boards

Replace wooden and on-edge circuit board racks; superior for transporting boards to wave solder machine:

- Permanently static dissipative foam (shuntable) laminated to our impregnated corrugated material
- Get better control, not susceptible to knocking over boards
- Get better ESD protection, insert leads into permanently static dissipative shuntable foam, reliable path-to-ground
- As recommended by ESD Association, ESD items are in intimate contact with dissipative material
- All Protektive Pak impregnated corrugated features as shown on page 6

## Board Handler Trays

### FEATURES

- Basic Protektive Pak tray
- Great container for Kanban

Item No.	Size I.D. - L x W x D

## Super Tek-Trays

### FEATURES

- Trays include a steel wire frame, that can stack and nest together for more efficient use of space and more productive when moving product
- Steel wire frame provides improved durability and stability
- Great container for Kanban

Item No.	Size I.D. - L x W x D

## Tek-Mate™ Board Handlers

### FEATURES

- Portable ESD worksurface that can also be used to transport populated, unsoldered circuit boards
- Static dissipative foam (RTT 10<sup>6</sup> - 10<sup>7</sup> ohms) laminated to Protektive Pak® impregnated corrugated material for greater durability
- Foam is shuntable, component leads can be kept at equipotential and more stable when moved
- Includes 10mm (3/8") grounding snap
- Static dissipative material 10<sup>7</sup> - 10<sup>9</sup> ohms
- Buried shielding layer minimizes sloughing and rub-off contamination
- Made in America

## Pro Mats

### FEATURES

- Economical ESD worksurface
- Antistatic, low charging dissipative surface
- Includes two 10 mm (3/8") male grounding snaps
- Chemical resistant
- Great choice for shelves and transportation carts
- Impregnated corrugated material; greater durability
- Static dissipative surface of 10<sup>7</sup> - 10<sup>9</sup> ohms
- Buried shielding layer minimizes sloughing and rub-off contamination
- Made in America

## Trash Receptacles

### FEATURES

- Economical ESD protective product to replace high charging plastic trash cans
- Antistatic, low charging dissipative surface
- Constructed with double sides, triple ends, and double thickness bottom for greater durability
- Steel reinforcing frame provides additional strength and durability
- Chemical resistant
- Easy assembly without the need for tape, glue, or staples
- ESD protective liners also available
- All Protektive Pak corrugated features as shown on page 6
- Made in America

## Impregnated Corrugated Totes

### FEATURES

- Used to transport or store ESD sensitive items
- When operators carry the totes, conductive handles provide path to ground
- Added durability and strength provided by steel perimeter frame (stackable version only)
- No assembly required on most sizes; easy assembly on the others, without the need for tape, glue, or staples
- Identified with ESD Protective Symbol (Ref: ESD 8.1)
- Made in America
- All Protektive Pak impregnated corrugated features as shown on page 6

## Nesting Totes

### FEATURES

- Used to transport or store ESD sensitive items
- Nesting saves space when storing totes
- Great container for Kanban

Drawing 37620

## Stackable Nesting Totes

### FEATURES

- Used to transport or store ESD sensitive items
- Rotating steel wire arms - when rotated in, totes are stackable even full of product, saving valuable space and enhancing productivity when moved
- Rotating steel wire arms - when rotated out, totes can nest, saving space when storing
- Great container for Kanban

## Tek Cabinets

### FEATURES

- Multi-sized drawers are designed for segregating ESD sensitive components
- Used for kitting or storing items at the workstation
- When drawers are closed, items are shielded by "Faraday Cage" effect, restricting electrostatic charges to exterior
- Containers include conductive plastic handles
- No assembly required
- Labels for drawers are included
- All Protektive Pak corrugated features as shown on page 6
- Made in America

## Tube Handlers

### FEATURES

- Economical and efficient way to store and transport DIP Tubes and Rails
- Each cell has an extender tab which may be labeled to identify the contents
- Tube Handler may be rotated on shelves to view the extender tab either vertically or horizontally
- Cell identification labels included
- Shipped knocked-down; easy to assemble
- All Protektive Pak corrugated features as shown on page 6

## Reel/Dip Tube Bin Boxes

### FEATURES

- Designed to safely store both reels and Rail/DIP tubes in the same bin box
- Available in open style with better loading from above
- Available in closed style with better loading from front
- May be used for storing, kitting, or transporting during work-in-process operations
- Shipped knocked-down; easy to assemble
- All Protektive Pak corrugated features as shown on page 6
- Made in America

## Reel Storage Containers

### FEATURES

- Economical method of storing reels
- Containers include conductive plastic handles and removable lids
- Constructed with double sides and ends for greater durability
- Conductive plastic indexing ribs prevent the reels from rolling around when stored
- When lid is closed, the "Faraday Cage" effect restricts electrostatic charges to exterior of box
- Conductive handles provide path to ground when operators carry the container
- No assembly required
- All Protektive Pak corrugated features as shown on page 6
- Made in America

## Small Component Shippers

### FEATURES

- Efficient means of shipping or storing small ESD sensitive items
- Provides ESD shielding with lid closed; "Faraday Cage" effect restricts electrostatic charges to exterior of box
- For physical protection; foam cushioning reduces stress from physical shock
- Pink static dissipative foam laminated to top, and conductive crosslink black polyethylene foam in bottom
- No assembly required
- Custom foam configurations available
- All Protektive Pak corrugated features as shown on page 6
- Made in America

## Circuit Board Shippers

### FEATURES

- Efficient means of shipping or storing ESD sensitive circuit boards and other items
- Provides ESD shielding with lid closed; "Faraday Cage" effect restricts electrostatic charges to exterior
- For physical protection, convoluted foam secures items, minimizing movement and reduces stress from physical shock
- No assembly required
- Convoluted static dissipative <math>10^{11}</math> ohms polyurethane pink foam laminated to top and fitted in bottom
- All Protektive Pak corrugated features as shown on page 6
- Made in America
