## SRC@DEVICES

Features

- Small size
- SMT-compatible
- Easily formed leads
- Sputtered ruthenium contacts
- Hermetically sealed contacts
- Fast switching speed - up to 500 Hz
- Wide range of available magnetic sensitivities

## Applications

- Security
- Proximity sensing
- Smoke alarms
- Automotive
- Level sensor
- Lamp current sensor
- Relays

## Approvals

- UL listed

## Standard Test Coil

The magnetic force (expressed in NI, AT or Ampere Turns) required to cause the reed switch contacts to close is called the pull-in or operate value.

|  | FR2 |
| :--- | :--- |
| Part \# | Coil -1 |
| Coil definition | NARM1 CTO01 |
| Coil resistance | $1200 \Omega$ |
| Number of turns | 5,000 |
| Wire size (nom. diameter) | 0.0399 mm (AWG 46) |
| Bobbin diameter (inside coil) | 3.96 mm |
| Winding length | 10.4 mm |

${ }^{(1)}$ Consult factory for test procedure.
The reed switch shall be placed in the test coil with the gap centered in the core of the coil winding. Test leads and their clips must be non-magnetic.
The longitudinal axis of the test coil and the test switch shall be vertical.

## Description

SRC Devices DYAD® dry reed switches are ideally suited for small switching signal applications. This switch has sputtered ruthenium contacts and an extraordinary seal strength, achieved by a patented laser sealing of the glass. In low level or dry switching environments, both switches typically provide $>1$ billion operations. The switches have hermetically sealed contacts and offer a wide range of available magnetic sensitivities.

## Ordering Information

A complete part number is represented by the digits to the right. For example, FR2S1030 is a DYAD ${ }^{\circledR}$ with a minimum operate value of 10 and a maximum of 30 . Refer to the switch operating specification charts for available ranges. Special ranges are available upon request.

Surface Mount Dyad
Refer to operating characteristics table for complete part number.
DYAD ${ }^{\star}$

| Part \# | Operate Range (NI) |
| :--- | :---: |
| FR2S1015 | 10 to 15 |
| FR2S1020 | 10 to 20 |
| FR2S1030 | 10 to 30 |
| FR2S1520 | 15 to 20 |
| FR2S1525 | 15 to 25 |
| FR2S2025 | 20 to 25 |

DYAD ${ }^{\circledR}$ Surface Mount

| Part \# | Operate Range ( NI$)^{1,2,3}$ |
| :---: | :---: |

Ratings（＠ $25^{\circ} \mathrm{C}$ ）

| Parameter | Min | Typ | Max | Units |
| :--- | :--- | :--- | :--- | :--- |
| Switching Voltage <br> R2－DYAD |  |  |  |  |
| Switching Current <br> R2－DYAD |  |  |  |  |
| Carry Current <br> R2－DYAD |  |  |  |  |
| Switching Frequency <br> R2－DYAD |  |  |  |  |
| Contact Resistance <br> R2－DYAD |  |  | 500 | Volts |

Absolute Maximum Ratings are stress ratings．Stresses in excess of these ratings can cause permanent damage to the device．Functional operation of the device at these or any other conditions beyond those indicated in the operational sections of this data sheet is not implied． Exposure of the device to the absolute maximum ratings for extended period may degrade the device and effect its reliability．

## Specifications

All parameters are at $25^{\circ} \mathrm{C}$ unless otherwise stated．
