UltraLast Green™ Is...

- A way to expand business by capturing market share of consumers who want greener choices that don't require a drastic lifestyle change.
- A fresh, attractive, green face in the battery aisle that offers the performance of household batteries, savings to consumers, and less impact on the environment.
- Easy to understand on shelf and easy to implement at home.
- A stronger greener alternative to ordinary household batteries.

Green without Compromise

- Replaces disposables in every application without sacrificing performance.
- Can be charged as many as 500 times, or up to three years.
- One rechargeable battery can keep up to 1,000 disposable alkaline batteries out of landfills.
- Can be recycled through the Rechargeable Battery Recycling Corporation (RBRC) program.
- Packaged in eco-friendly materials, including post-consumer recycled cardboard and recyclable PET plastic.
