

Laser Distance Meter 2280-20

Photos

The Milwaukee Advantage

Milwaukee's Laser Distance Meter is a heavy duty distance measuring tool for professional, commercial and industrial applications. The 2280-20 can easily measure distance up to 197' with 1/16" accuracy. The end bracket allows for accurate measuring from corners and edges. Easily add and subtract values and use six different functions to calculate area, volume, Pythagorean equations and min/max. The 2280-20 is covered by the Milwaukee 5-Year Warranty.

Features

- Measures up to 200' within 1/16"
- Design allows for easy measuring from edges and corners
- Area and volume measurement plus memory storage of last 10 readings
- Easy to read display with backlight
- Six different measurement functions
- Rugged over-molding
- Easily add and subtract distance values

Specifications

Distance Range	0.16' (0.05 m) to 197' (60 m)
Units Displayed	000' 00" 1/8, 000.00', 00.000m
Accuracy	±0.059" (±1.5mm)
Battery Life (# of measurements)	5,000
No of Batteries Included	(2) AAA Batteries

Includes

- (1) Laser Distance Meter
- (2) AAA batteries
- (1) Carrying Case
- (1) Manual
