

### **Smart-UPS SC** APC Smart-UPS SC 1500VA 230V - 2U Rackmount/Tower

APC Smart-UPS SC, 865 Watts / 1500 VA,Input 230V / Output 230V, Rack Height 2 U

**Includes**: CD with software, Documentation CD, Rack Mounting brackets, Smart UPS signalling RS-232 cable, USB cable, User Manual

Standard Lead Time: Usually in Stock

#### **SC1500I Features**

| USB Connectivity          | Provides management of the UPS via a USB port (not available on all models).                        |
|---------------------------|---|
| Rack/Tower convertible    | Protects the initial investment in the UPS when migrating from tower to rack-<br>mount environment. |
| Multiple mounting methods | Allows for standardization on one product for use in different environments.                        |
| Front-access servicing    | Simplifies installation and maintenance while minimizing space requirements.                        |

| Manageability   |  |
|---|--|
| Network manageable                                      | Provides remote management of the UPS over the network.  |
| Audible Alarms  | Actively let you know if the unit is on battery, if the battery is low or if there is an overload condition.   |
| Automatic self-test                                     | Periodic battery self-test ensures early detection of a battery that needs to be replaced.   |
| Battery failure notification                            | Provides early-warning fault analysis on batteries enabling timely preventive maintenance  |
| Serial Connectivity                                     | Provides management of the UPS via a serial port.  |
| LED status indicators                                   | Quickly understand unit and power status with visual indicators.   |
| InfraStruXure<br>Manager Compatible                     | Enables centralized management via the APC InfraStruXure® Manager.   |
| Economy   |  |
| Boost and Trim<br>Automatic Voltage<br>Regulation (AVR) | Gives higher application availability by correcting low and high voltage conditions without using the battery.   |
| Adjustable voltage-<br>transfer points                  | Maximizes useful battery life by widening the input voltage window or tightening the output voltage regulation.  |
| Safety-agency<br>approved                               | Ensures the product has been tested and approved to work safely with the connected service provider equipment and within the specified environment. UL, FCC, CE, C-Tick approvals. |
| Availability  |  |
| Dataline Surge<br>Protection                            | Provides protection of connected equipment from power surges on the data lines.  |
| Power conditioning                                      | Protects connected loads from surges, spikes, lightning, and other power disturbances.   |
| Intelligent Battery<br>Management                       | Maximizes battery performance, life, and reliability through intelligent, precision charging.  |
| Automatic restart of<br>loads after UPS<br>shutdown     | Automatically starts up the connected equipment upon the return of utility power.  |
| Cold-start capable                                      | Provides temporary battery power when the utility power is out.  |
| Hot-swappable   | Ensures clean, uninterrupted power to protected equipment while batteries  |

#### **Smart-UPS SC Features & Benefits**

batteries are being replaced electronic components distributor

| Resettable circuit | Enables a quick recovery fi | rom overload events. |
|--------------------|-----------------------------|----------------------|
| breakers           | -                           |                      |

# Output

| Output Power Capacity            | 865 Watts / 1500 VA                                       |
|----------------------------------|---|
| Max Configurable Power           | 865 Watts / 1500 VA                                       |
| Nominal Output Voltage           | 230V  |
| Output Voltage Distortion        | Less than 5% at full load                                 |
| Output Frequency (sync to mains) | 47 - 53 Hz for 50 Hz nominal,57 - 63 Hz for 60 Hz nominal |
| Crest Factor                     | up to 5 : 1   |
| Waveform Type                    | Stepped approximation to a sinewave                       |
| Output Connections               | (4) IEC 320 C13   |
|                                  |   |
|                                  | (1) IEC Jumpers   |

# Input

| Nominal Input Voltage                              | 230V                             |
|--|----------------------------------|
| Input Frequency                                    | 50/60 Hz +/- 3 Hz (auto sensing) |
| Input Connections                                  | IEC-320 C14                      |
| Cord Length  | 1.83 meters                      |
| Input voltage range for main operations            | 186 - 284V                       |
| Input voltage adjustable range for mains operation | 175 - 297V                       |

## **Batteries & Runtime**

| Battery Type                        | Maintenance-free sealed Lead-Acid battery with suspended electrolyte : leakproof |
|-------------------------------------|--|
| Typical recharge time               | 8 hour(s)  |
| Replacement Battery                 | <u>RBC59</u>   |
| RBC <sup>TM</sup> Quantity          | 1  |
| Typical Backup Time<br>at Half Load | 20.9 minutes (432.5 Watts)   |
| Typical Backup Time<br>at Full Load | 7.6 minutes (865 Watts)  |
| Runtime Chart                       | Smart-UPS SC   |

## **Communications & Management**

| Control panel | LED status display with On Line : On Battery : Replace Battery and Overload indicators |
|---------------|--|
| Audible Alarm | Alarm when on battery : distinctive low battery alarm : overload continuous tone alarm |

## **Surge Protection and Filtering**

| Surge energy rating  | 445 Joules   |
|----------------------|--|
| Filtering            | Full time multi-pole noise filtering : 5% IEEE surge let-through : zero clamping response time : meets UL 1449 |
| Data Line Protection | RJ-45 Modem/Fax/DSL/10-100 Base-T protection   |

# Physical

| Maximum Height      | 89.00 mm  |
|---------------------|-----------|
| Maximum Width       | 432.00 mm |
| Maximum Depth       | 463.00 mm |
| Rack Height         | 2U        |
| Net Weight          | 21.36 KG  |
| Shipping Weight     | 24.55 KG  |
| Shipping Height     | 254.00 mm |
| Shipping Width      | 610.00 mm |
| Shipping Depth      | 610.00 mm |
| Master Carton Units | 1.00      |
| Color               | Grey      |
| Units per Pallet    | 10.00     |
|                     |           |

## Environmental

| Operating Environment                         | 0 - 40 °C      |
|---|----------------|
| Operating Relative Humidity                   | 0%             |
| Operating Elevation                           | 0-3000 meters  |
| Storage Temperature                           | -5 - 45 °C     |
| Storage Relative Humidity                     | 0%             |
| Storage Elevation                             | 0-15000 meters |
| Audible noise at 1 meter from surface of unit | 45.00 dBA      |
| Online Thermal Dissipation                    | 180.00 BTU/hr  |

## Conformance

| Regulatory Approvals | C-tick,CE,GOST,VDE        |
|----------------------|---------------------------|
| Standard Warranty    | 2 years repair or replace |
| ROHS/WEEE Compliance | RoHS 7b Exemption         |

\*\*The time to recharge to 90% of full battery capacity following a discharge to shutdown using a load rated for 1/2 the full load rating of the UPS.
