Fixing system

A Magelis STU Small Panel is made up of a front module (comprising the screen) and a rear module (comprising the CPU plus terminals and connectors). The two modules are fixed together by means of a hole measuring 22 mm in diameter. The fixing system contains the following elements:

- 6 An adjusting nut
- 7 A seal
- 8 An anti-rotation tee (can be used as an option)
- 9 A release mechanism: simply press to separate the two modules once they have been fixed together
