## SERIES 08

## SERIES 09

## 0.5" Diameter, 1/4 Amp, Standard, Military SR13

## FEATURES

- Proven Quality in Thousands of Applications
- Gold-plated Contact System
- $30^{\circ}, 36^{\circ}, 45^{\circ}, 60^{\circ}$ and $90^{\circ}$ Angle of Throw Options
- MIL Qualified Versions MIL-S-3786/13

DIMENSIONS In inches (and millimeters)

CIRCUIT DIAGRAMS: Solder Lug Terminals

Multi-Deck Rotary Switches

## SERIES 08

## SERIES 09

## .5" Diameter, 1/4 Amp, PC Mount

## FEATURES

- Gold-plated Contact System
- $30^{\circ}, 36^{\circ}, 60^{\circ}$ or $90^{\circ}$ Angle of Throw Options
- Compatible with Logic Level Voltages and Currents

DIMENSIONS In inches (and millimeters)

CIRCUIT DIAGRAMS: PC Mount

## PC BOARD MOUNTING PATTERN

## $36^{\circ}$ Angle of Throw

$30^{\circ}, 60^{\circ}$ and $90^{\circ}$ Angle of Throw

| Number of Poles <br> Per Deck | Common Terminal <br> Hole Location |
| :---: | :---: |
| 1 Pole Per Deck | A |
| 2 Poles Per Deck | A |

| Angle of Throw | Base Terminals <br> Hole Location |
| :---: | :---: |
| $30^{\circ}$ | All |
| $60^{\circ}$ | E and F |
| $90^{\circ}$ | D and F |

## SHAFT AND PANEL SEAL

A shaft and panel seal is available to provide watertight mounting of the Series 08 and 09. Standard and Military Style rotary switches. Sealing is accomplished by O-ring shaft seal and panel seal washer. When the panel seal is compressed, dimensions are approximately the same as an unsealed switch. Sealed switches are provided with a double flat bushing. Non-turn feature can be accomplished by proper fit of this bushing into panel hole and/or by allowing non-turn tab to extend into (but not through) panel. Military Style rotary sealed switches do not have a non-turn tab.

## MILITARY QUALIFIED

Series 08 and 09 military switches are qualified to MIL-DTL-3786/13. They include $30^{\circ}, 36^{\circ}, 45^{\circ}$ and $60^{\circ}$ angles of throw with solder lug terminals in sealed and unsealed styles. See front and rear views at right. Standard variations which do not affect switch performance can also be marked as qualified product-contact Grayhill.

The military style is dimensionally the same as the standard except for the solder lug. Convert standard style switch drawings to military style drawings by including this terminal detail and changing the over-terminal dimensions shown here. Grayhill can provide complete specification drawings. Qualified switches can be ordered by the Grayhill number or the " M " number; they will be marked per MIL-DTL-3786/13.

Contact Resistance: 50 milliohms maximumafter life
Insulation Resistance: 1,000 megaohms minimum between terminals and shaft Dielectric Strength: 500 Vac (atmospheric pressure) and 350 Vac (reduced pressure) between mutually insulated parts.

The Series 08M and 09M also meet the requirements ofMIL-DTL-3786 SR13for moisture resistance, stop strength, rotational torque, vibration ( 10 to $2,000 \mathrm{cps}$ ), medium and high shock, salt spray, explosion, thermal shock ($65^{\circ} \mathrm{C}$ to $85^{\circ} \mathrm{C}$ ) and terminal pull. When tested at sea level, $25^{\circ} \mathrm{C}$ and $68 \%$ relative humidity with failure criteria of 50 milliohms maximum contact resistance and 500 Vac breakdown voltage, these switches will make and break 250 mA at 28 Vdc inductive ( 250 millihenries): $1 / 2 \mathrm{amp}$ : at 28 Vdc resistive: $1 / 2 \mathrm{amp}$; at $115 \mathrm{Vac}: 60 \mathrm{~Hz}$ resistive for 10,000 cycles of operation.

## Materials and Finishes <br> Standard Style

Switch Bases: Melamine per (MIL-M-14) ASTM-D-5948
Cover, DeckSeparators and End Plate: Phenolic per (MIL-M-14) ASTM-D-5948
Rotor Mounting Plate: Thermoplastic
Mounting Bushing: Brass, tin/zinc-plated.
Shaft, Retaining Rings, Through Bolts, Shaft
Extension, Stop Washers, Stop Arm, Thrust Washers, Nuts, Cover Plate and Rear Support Plate: Stainless steel
Detent Balls: Steel, nickel-plated
Detent Springs: Tinned Music wire
Terminals, Stator (Base) Contacts and Common Plate: Brass, gold plate .00001" minimum over silver plate $.0003^{\prime \prime}$ minimum
Rotor Contact: Silver alloy, gold-plated .00001" minimum
Mounting Hardware: Two mounting nuts .062" $(1,57)$ thick by $.312^{\prime \prime}(7,92)$ across flats and one internal lockwasher are supplied with switch.
Lockwasher: Stainless steel
Mounting Nuts, Washers: Brass, tin/zincplated and or stainless steel.

## Materials and Finishes Military Qualified

Deck Separators, End Plate and Switch Bases: Diallyl per (MIL-M-14) ASTM-D-5948
Rotor Mounting Plate: Thermoplastic
Mounting Bushing: Brass, tin/zinc-plated.
Shaft, Cover, Stop Plate, Retaining Ring,
Through Bolts, Shaft Extension, Stop Arm,
Thrust Washers, Cover Plate and Rear Support Plate, Lockwashers and Nuts: Stainless steel Detent Balls: Steel, nickel-plated
Detent Springs: Tinned music wire
Terminals, Stator (Base) Contacts and Common Plate: Brass, gold plate .00001" minimum over silver plate $.0003^{\prime \prime}$ minimum
Rotor Contact: Silver alloy, gold-plated .00001" minimum
Mounting Hardware: Two mounting nuts .062" $(1,57)$ thick by $.312^{\prime \prime}(7,92)$ across flats and one internal tooth lockwasher are supplied with this switch.
Mounting Nuts, Washers: Brass, tin/zincplated and or stainless steel.

## ADDITIONAL CHARACTERISTICS

## Standard Style and Military Qualified

Contacts: Shorting or Non-shorting contacts available in $30^{\circ}, 36^{\circ}$ and $45^{\circ}$ angle of throw rotary switches. Non-shorting contacts available in $60^{\circ}$ and $90^{\circ}$ angle of throw switches. All are wiping contacts with over 100 grams of contact force.
Stop Strength: 12 lb -inches minimum
Rotational Torque: 8-64 oz-in depending upon the number of poles per deck and the number of decks
Extended Studs: Switches of six decks or more have longer studs with extra stud nuts for recommended double end mounting.

CHOICES AND LIMITATIONS

| Series | Style and Designation | Angle of Throw | Stops | Terminals | Number Shorting | of Decks Non-Shorting | Poles Per Deck | Number of Positions/Pole |

## ORDERING INFORMATION

$T$ L | Stop Arrangement: Add letter C or F to a one pole per deck switch with the maximum number of positions |
| :--- |
| for a stop between position 1 and the last position. |
| Type of Contacts: $\mathrm{N}=$ Non-shorting; $\mathrm{S}=$ Shorting |
| Positions Per Pole: Requires 02 positions as a minimum to the maximum allowable dependent on the angle |
| of throw and poles per deck |

* All rotary switches that are required to have military designated markings and testing adhering to MIL-3786 are to be ordered by specifying the military part number identified on the appropriate slash sheet.

Available from your local Grayhill Distributor For prices and discounts, contact a Local Sales Office, an authorized local Distributor or Grayhill.
