Switchcraft<sup>®</sup> commercial 2- and 3-conductor phone plugs are available with a logo handle in addition to the plain handle. The Switchcraft name appears prominently on the shielded handle so the plugs can no longer be easily confused with "copycat" plugs found on the market today. Knurling on handles provides a convenient, positive fingertip grip for connect and disconnect.

Plugs are available in the following popular variations:

- 1. 1/4 inch diameter finger, 2-conductors.
- 2. 1/4 inch diameter finger, 3-conductors.
- 3. .206 inch diameter finger, 2-conductors.

Plug handles accept cable up to .290 inch diameter.
