EH Series Audio/Video/Data Panel Mount Connectors

Switchcraft's newest line of connectors, the EH Series, offers a wide range of connectors all within a standard XLR housing. A single panel cut-out allows the end user to mount multiple formats including USB-A, USB-B, Firewire, S-VHS, 3.5mm stereo with normal circuit, MIDI, both 9 pin and 15 pin HD D-sub, plus RCA and BNC feed-thru's. Perfect for systems integration, pro audio, A/V, data, etc. The connectors conveniently mount into standard XLR diagonal hole knockouts, which allows the installer to easily combine the different formats into standard pre-knocked plates or racks without having to custom drill and tap a specific hole for a specific connector. You can also populate your own combination of EH connectors in Switchcraft empty QG rack panels or single and dual gang wall plates.
