

# STP60NF03L

## **General features**

| Туре       | V <sub>DSS</sub> | R <sub>DS(on)</sub> | ID  |
|------------|------------------|---------------------|-----|
| STP60NF03L | 30V              | <0.01Ω              | 60A |

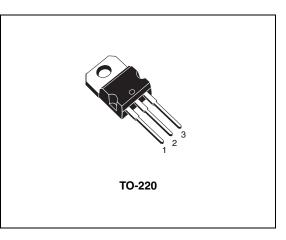

Low threshold drive

## Description

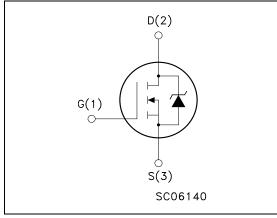

This Power MOSFET is the latest development of STMicroelectronis unique "Single Feature Size™" strip-based process. The resulting transistor shows extremely high packing density for low on-resistance, rugged avalanche characteristics and less critical alignment steps therefore a remarkable manufacturing reproducibility.

# 4 Package mechanical data

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a Lead-free second level interconnect. The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at: www.st.com
