

## TIP2955 TIP3055

## Complementary power transistors

### Features

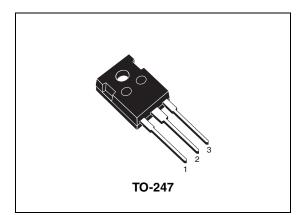

- Low collector-emitter saturation voltage
- Complementary NPN PNP transistors

### Applications

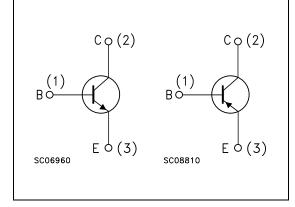

- General purpose
- Audio Amplifier

### Description

The devices are manufactured in epitaxial-base planar technology and are suitable for audio, power linear and switching applications.

## 3 Package mechanical data

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a Lead-free second level interconnect. The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at : *www.st.com*
