

641-Series Pushbutton Switches

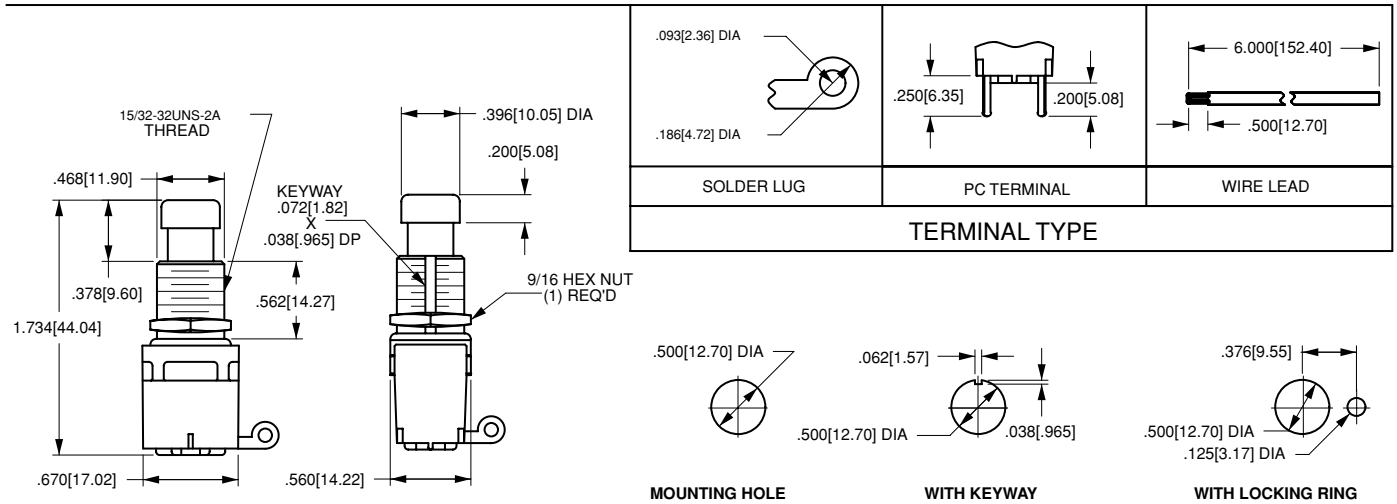

The single or double pole 641-Series represent the most compact offerings of our pushbutton switch line. Rugged metal construction, self cleaning contacts and stiff actuation force (3-3 1/2 lbs. typical) have made these switches ideal for most “foot pedal” type applications. These alternate action switches fit a standard .500” mounting hole, have termination options including solder lug, wire lead and PC, and are popular within the Music Industry and Audio-visual Markets.

Dielectric Strength
UL/CSA: 1000V - live to dead metal parts and opposite polarity.

Electrical Life
25,000 cycles

Mechanical Life
100,000 cycles

Operating Temperature
32°F to 185°F (0°C to +85°C)

64111210
